Murphy and Coulson Win Over Schneider In Poll Book Count

Books in Three Precincts Sealed With Ballots, Records Used

W. J. Murphy, Petite Lake, and Robert E. Coulson are the apparent winners in the race for state representative on the Republican ticket. When the tabulation of the poll books was completed Wednesday forenoon Coulson had 28,695½ votes, Murphy, 28,389, and Hugo L. Schneider, 28,176½.

Even when this recheck of the tabulations was completed the vote was not strictly official. The officials in three precincts including Antioch 5 (Channel Lake) and Benton 2, sealed their poll books in with their ballots so that it will take a court order to get them.

County Clerk Garfield Leaf and his assistants had to get figures from those precincts from sample ballots on which the officials had copied the results.

It is not believed that these precincts will have any material results and it can be considered that Rep. Murphy, once believed to be low man of the three, will go back to the legislature.

A recount probably is out of the picture because of the great expense.

Murphy took a decided lead over the weekend when it was found that there was an error in the count at Lake Bluff where the cumulative vote was disregarded.

Voters were improperly counted in Shields, Precinct 2; Elia, precinct 3; and Waukegan, Precinct 33, all of which worked to Murphy's advantage.

Grade School P.T.A. Elects New Officers, Judge Hulse Speaks

Mrs. Richard Eckert was elected president of the Antioch Grade School Parent-Teacher association Monday evening.

The other officers are Mrs. Glen Pierce, vice president; Mrs. Elmo Edwards, secretary; Mrs. Arthur Meierdick, treasurer; Mrs. Wesley Williams, publicity chairman; Mrs. Warren Polley, historian; and Mrs. John W. Horan, hospitality chairman.

The nominating committee comprises Mesdames Robert Horton, Norman Jedge, Jack Crandall and Miss Barbara Barthel.

Mrs. Donald Holum, school nurse, gave a report on the health program for the past school year.

Judge Minard E. Hulse of Waukegan gave a very interesting report on juvenile delinquency in the county. He said there are three defenses for juveniles, the home, psychiatry, and the juvenile court. He lists the following eleven points as what he calls the Children's Bill of Rights:

1. Affection and guidance from the parents.
2. Understanding parents.
3. Religious guidance.
4. Right to a good school program.
5. Authority and discipline of the child by the parent.
6. Security against detrimental activities.
7. The right to individual recreation such as scouting, YMCA's and YMCA's.
8. Good Adult behavior.
9. The right to live in a decent community.
10. The right to a decent job.
11. The right to a good health program.

Refreshments were served in the cafeteria by First Grade Room Mothers, Mesdames Leonard Robinson and William Morgan; assisted by Mesdames Richard Stroner and David Nissen.

The last meeting of the Antioch Grade School P.T.A. will be at 8 p. m. Monday, May 21, in the Grade School gym.

Lake Villa Band Will Leave for Peoria and State Contest Friday

Elmer Oelkers was re-elected president of the Lake Villa Grade School Band Parents association. Other officers chosen are Russell Dewar, first vice president; Mrs. Charlotte Wagner, second vice president; Mrs. Virginia Black, third vice president; Mrs. Delores Chmelir, secretary; and Mrs. Beatrice Cribb, treasurer.

The organization voted to pay the transportation costs and accompanists' expenses for the band trip to Peoria tomorrow. The band will leave by bus tomorrow morning and return Saturday. The members will spend the night at the Rodgers hotel in Bloomington.

Grass Lake Board Will Proceed to Build Addition to School on 132 to 131 Vote

The Grass Lake School Board ruled Tuesday evening that the referendum on the \$95,000 bond issue to finance an addition to the present building passed by the narrow margin of one vote.

The vote was 132 to 131 with two spoiled ballots, one indicating a yes vote, and the other a no vote.

Clerk Roy Frasier said that despite some opinions to the contrary, court decisions have held that the word "majority of votes" applies to valid ballots only and does not take into consideration spoiled ballots.

There were no fewer than 90 spoiled ballots in the election of the board member where Lester Hribar was the only candidate. It was said that many voters in writing in the name of the person for whom they were voting forgot to mark their "X" in the square opposite the name, or merely wrote the first or last names of the person for whom they were voting.

There were a few "write-ins" for other candidates.

Meyer Chosen President
The board organized Tuesday with Herbert Meyer as president; Frasier as clerk, and Hribar as director.

Meeting with the board that night was A. R. Martin, Wilmette, architect, who discussed with the directors the procedure to draw up plans and specifications. The board wants to build an addition containing three classrooms and an all-purpose room.

Last month the board settled out of court the lawsuit brought against it by Architect Leo Strelka of River Forest.

Strelka's suit revealed that on March 18, 1946, he was awarded a written contract by members of a former board, computed on 6 percent of the cost of the construction of the present school, completed in 1948, at a cost of \$19,167.64. Strelka said he received \$4,000 in fees, leaving an unpaid balance of \$3,170.05.

The older school, replaced by the 1948 structure now destined for enlargement, still stands. It was built in 1912 on ground that had been a school site since 1869.

A fluctuating enrollment characterizes the Grass Lake district. Peak enrollment came in 1949 when there were 123 pupils. But at start of the school year last September, 107 pupils enrolled, and the student body has numbered as low as 98, the 1955 figure.

Northwest Democratic District Organizes in Lake Villa Meeting

The Northwest Democratic District, comprising Antioch, Lake Villa and Grant townships, met in Lake Villa Tuesday and elected officers.

They are Anton Sciacero, Lake Villa, president; Charles Cermak, Antioch, vice president; Charles Lucas, Fox Lake, Secretary; and William Wiczorek, Antioch, treasurer. Cermak and Lucas were named on the publicity committee and the ways and means committee comprises James Drucker, Lake Villa, chairman; Robert Nelson, Ingleside, assistant chairman; R. F. Heiden, Antioch; and Frank Charvat, Fox Lake. Arthur Palenski is sergeant-at-arms.

Discussion pertained to the county convention next Monday in Waukegan. This district will have no candidates. The next district meeting will be in Antioch, May 21.

Leave for State Friday
The Antioch Grade School band and top ranking instrumentalists will go to Peoria tomorrow to compete in the state music contest.

Guy Nery, 51, Father of Mrs. Edmond Hood Dies Unexpectedly

Funeral services were held at 11 a. m. today at St. Margaret's Episcopal church in Chicago for Guy Nery, 51, father of Mrs. Edmond Hood, wife of the rector of St. Ignace's Episcopal church in Antioch.

Mr. Nery died at 12:15 p. m. Sunday at the Fox Lake golf course while playing golf with Fred Hawkins of Antioch. He was apparently in good health as he attended the morning service at the Antioch church and then went to Fox Lake with Hawkins for their game of golf. They were at the 11th hole when he slumped to the ground.

The Fox Lake Rescue squad was called but it could not revive him. The body was brought to the Strang chapel and on Tuesday afternoon taken to Chicago.

Mr. Nery was born Oct. 6, 1904 in Italy and was 16 years of age when he came to the United States and settled in Chicago. He was a barber by trade, operating a shop at his home 2531 E. 73rd st. He was vice president of the local union of barbers.

Surviving are the widow, Mrs. Caroline Nery, and a son, Guy Nery Jr., of Chicago, the daughter, Mrs. Marlowe Hood, and two grandchildren.

Burial was at Oakwood cemetery in Chicago.

Lake Villa Methodists Consider Buying Site And Building Church

A conference of members of the Community Methodist church at Lake Villa will be held at 3 p. m. Sunday at which time it is expected that the board of trustees will be authorized to purchase land for a new church site.

Also, the building committee will be authorized to develop plans for the new church and to authorize the finance committee to establish an adequate program of financing the church.

The Rev. Gerald B. Robinson announced the church will begin holding two worship services starting Sunday. Identical services will be held at 8:30 a. m. and 11 a. m. with church school at 9:45 a. m. Miss Donna Reidel will be organist at the early service and there will be special solos and ensembles.

A class for young adults will be held for the first time Sunday in the parsonage at 9:45 a. m. The leader will be Karl Ohlendorf, director of Peacock Camp and teacher at the Lake Villa Public School. All young married couples and single young adults are invited to attend.

Clarence Thanked Substantially
Clarence Cunningham, maintenance man at the Antioch Township High School, knows his work is appreciated. On April 11 he was called from his nightly cleaning duties by the Board of Education in session and presented 20 red roses and a \$50 bill in appreciation for his 20 years of service to the school.

Miss Mary Lou Sibley of Evanston spent the week end with her parents, Mr. and Mrs. N. E. Sibley.

Eleven Grass Fires During Week Give Firemen Little Rest

Chief Simonsen Warns of Penalty for Burning Without Permit

Eleven grass fires, one of which enveloped a tool shed and another of which threatened homes and business places, kept Antioch firemen busy this past week.

A grass fire at 1:30 p. m. Friday on Beach Grove rd. west of Rte. 59 destroyed a tool shed on the Joseph Kean property with a loss estimated at \$700. The fire was next door to the John Donovan farm where a grass fire consumed a residence and contents the day before.

The Antioch firemen were called too late to have opportunity to save the shed.

At 2 p. m. Friday the firemen extinguished a grass fire at the William Banned property on North Avenue at Lake Catherine.

Fires Saturday were behind the Grass Lake Lumber Yard where there is a large slough; a grass fire on the chain of Lakes subdivision on Grass Lake rd.; and a rubbish fire at the Barney Naber dumping ground on Tiffany rd.

The biggest fire that day was at 2:05 p. m. The blaze started in Felter's subdivision and whipped by the wind traveled rapidly eastward past homes to Smart's Country House which it also threatened.

Antioch firemen used three trucks and the entire force in bringing the fire under control. Chief Edgar Simonsen said the flames would leap a distance of 50 feet and even jumped Rte. 173 into the Ackerman land. Threatened at one time was Barthel's garage. Smoke from the fire enveloped all of Antioch.

Fire in a slough on Venn's Island at Lake Marie drew the attention of the firemen at 2:25 p. m. Sunday. (Continued from page 5)

Six Boys and Girls Arrested for Break-in At Channel Lake House

Three girls and three boys ranging in ages from 11 to 14 were arrested Monday night by sheriff's deputies who gained from them information that cleared up a number of break-ins and burglaries in the Channel Lake area.

The arrests by Deputies Edwin J. Richter and William Wood followed the latest break-in in which the six held a cocktail party in the Herman Seekamp residence on the Spring Grove rd., Channel Lake and turned the interior of the two-story house to shambles.

Bert Hites, caretaker at the Seekamp residence, called police after he discovered the building broken into a 7 p. m. while making a routine check. He said all was in order when he made a previous check at 1 p. m.

Wood said the house was entered by breaking a stained glass window, and opening a door from the inside. All rooms on both floors of the house had reportedly been ransacked, with contents of drawers strewn about the floor.

In the dining room, deputies discovered that a party had been set for six persons, with a set of cocktail glasses at each of the six places. Remnants in the glasses indicated that wine and Hawaiian punch were served.

From neighbors, Wood and Richter said they learned the names of six youngsters who were seen in the vicinity earlier in the day, and they went to the home of a 13-year-old boy, who first denied but later admitted participating in the vandalism, and implicated his five companions.

Under further questioning, the six youngsters admitted the break-in at the Slide-Inn Tavern at Channel Lake a month ago, also the burglary of the Bernhard J. Haviland residence in rural Antioch.

In the tavern break-in, considerable damage was reportedly done to tavern fixtures, supplies, and coin machines. Loot from the burglary, which included \$15 in cash, was hidden in a hollow tree stump, the youngsters said.

A 17-jewel lady's wrist watch and a religious medal, included in the loot from the Haviland home, were recovered at the home of one of the teen-agers.

Deputies said that the parents of all six youngsters are cooperating fully with the sheriff's office in the matter, and the loot from the break-ins is being rounded up and brought to a central location where it will be gone over later today in an effort to return it to its owners.

All of the youngsters have been remanded to the custody of their parents, pending court action.

Dr. Carlucci, Mrs. Seyfarth Elected To High School Board of Education; Walter Hills Ends 18 Years Service

Sequoits To Tangle With Bulldogs Friday On Wauconda Diamond

Indians Win Over Grayslake Last Friday 11 to 7

Antioch's Sequoits will go to Wauconda tomorrow to battle with the Bulldogs in an attempt to swing back on the victory side in conference baseball.

The local team beat Grayslake, defending champions, last Friday, 11 to 7, but dropped a 4 to 5 decision to Grant there yesterday afternoon in a game postponed from the day before because of cold weather.

In both games Wayne Swanson pitched good ball and did well at the bat, but on both occasions he had one bad inning. In the game with Grayslake his teammates had piled up enough runs to weather the bad innings, but in the Grant game that situation just didn't exist.

In the game against Grayslake Antioch pushed over six runs in the first, added three more in the second, and single markers in the third and fourth.

Key hit in the first inning for Antioch was Swanson's single with the (continued on page 5)

High School Trustees To Organize Tuesday; Silent on Resolution

The Antioch Township High School Board will meet Tuesday evening for organization. The meeting was postponed from Wednesday because of the fact that Louis Biel, secretary, was ill and could not attend. He has been hospitalized in Waukegan.

Whether the matter of the resolution of the Illinois State Federation of Teachers charging that Daniel J. Cahill, a teacher "was fired for exercising the right of free speech" and requesting that he be reinstated, will be given any attention is not known.

The resolution passed by the IST at Peoria last Saturday, said that the main reason Cahill was not given his contract was that he wrote a letter to a Waukegan newspaper criticizing the report on teachers' salaries published by the board.

Cahill is said to have had no part in bringing about the complaint of the federation.

Chicago Woodwind Quintet Featured in Concert at Antioch High School Friday

The Chicago Symphony Woodwind quintet will be featured in concert at 8 p. m. Friday in the high school auditorium under the auspices of the Woman's Society of Christian Service of the Methodist church.

Each member is a key player in the Chicago Symphony and of the original 1937 group, only one change has taken place, that of Wilbur Simpson on the bassoon.

Original members remaining are Jerome Stowell, clarinet; Robert Mayer, oboe; Philip Farakas, (continued on page 4)

Grayslake Wins Track Meet on Antioch Field

Grayslake won the triangular track meet between that school, Wauconda and Antioch High schools in Antioch Monday. The score was Grayslake 65, Wauconda, 58, and Antioch 14.

The Rams made a sweep of the field events and Wauconda stood out in the track events.

Roger Pichoy, Antioch junior was the only one for his school to win a first place. He won the low hurdles, was third in the high hurdles and third in the high jump. Jim Denton, sophomore got third in the 100-yard dash and fourth in the 220-yard dash.

Gene Prange, senior, got third in the discus.

Class Play a Success
The senior class play "The Curious Savage" drew well-filled houses both Friday and Saturday nights and the people were well pleased with the production.

Roman Vos is Re-elected Organization Delayed Because of Illness of Louis Biel, Secretary

In what is believed to have been the largest vote ever recorded by the Antioch Township High School District, two new members were elected to the board of education Saturday afternoon.

They are Dr. Richard Carlucci and Mrs. Ruth H. Seyfarth, who waged a vigorous campaign. Re-elected was Roman Vos whose vote in Antioch was highest of the seven candidates.

Walter K. Hills, who has served on the board for 18 years was defeated. His total votes, however were less than 100 below that of the top vote getter, Dr. Carlucci.

The totals of the two precincts, Lake Villa and Antioch, for the candidates were: Dr. Carlucci, 762; Mrs. Seyfarth, 745; Roman B. Vos, 715; Elmer Rentner, 711; Carl M. Larson, 677; Walter K. Hills, 668; and John F. Romer, 275.

The board meeting to canvass the vote and organize was postponed from last evening owing to the sickness of Secretary Louis A. Biel.

In topping the list of vote getters Dr. Carlucci was highest at Lake Villa.

Observers at the polls said that many newer and younger residents voted this time in contrast to the past when the older residents assumed the responsibility of casting the votes.

Because of the controversy over the firing of teachers more interest was developed in the election and the victory went to those who were strongly critical of the action of the board.

The vote by precincts was as follows:

Candidates	Antioch	L. Villa
Carlucci	602	160
Seyfarth	613	132
Vos	643	72
Rentner	638	73
Larson	533	144
Hills	600	65
Romer	116	159

Write-in votes were Dr. C. P. Midgley 1, H. Lisle Rogers, 3; and Leylon Ipsen, 4.

Many Vote in Grade School Elections Even Though Few Running

Antioch Grade School District electors went to the polls in considerable numbers Saturday and elected Norman Jedge, Wendell Nelson, and Mrs. Helen Patrovsky to the board of education.

Jedge received 363 votes, Nelson, 353; and Mrs. Patrovsky, 333. Write-in votes gave Leylon Ipsen 23 votes, and Lisle Rogers, 19 votes.

The large number of votes accorded the successful candidates was in reality a vote of confidence.

At Channel Lake Grade School, Edwin J. Hucker was re-elected to the three-man board, winning over Mrs. Lucille Kueckenmeister 51 to 34.

Robert Duha was re-elected at Emmons School District with Lamont Davis winning over Eugene Geiger for the other post.

Lester Hribar, sole nominee for membership on the board of school directors at Grass Lake school, received 133 votes. Ninety-three ballots were spoiled in this election but since there was no opposition to Hribar, the spoils had no effect on the outcome. The supply of 220 ballots was exhausted an hour before the time for the polls to close.

Russell Doolittle was the only candidate at Hickory Corner School and received the unanimous vote of 14 electors. He takes the place of Wilbur Hunter, who was not a candidate for re-election.

Snowwhite Stores Sold By Bauers to Demes

Mr. and Mrs. Louis Bauer, who since 1938 have operated the Snowwhite ice cream plant and soda fountain on Main st. have sold it and their Snowwhite store at Twin Lakes to Thomas and Ann Demes of Lake Shangri La.

The buildings were not involved in the transaction, but the equipment for making ice cream was.

The Bauers will leave in June for Waukegan to reside. They will retain their interest in Antioch Recreation.

The stores will open under new management Saturday.

Obsolete Answer

Writing in the Wall Street Journal, Russell Kirk, the distinguished educator and author, discusses some of the serious problems of modern medicine in England—problems adversely affecting patient and doctor alike. At the end of his article he makes this important point about the economic aspects of medical care: "In the United States, where the public spends a greater proportion of income on medical attention than in any other country, only about 4.5 per cent of family income goes for medical attention. Nearly an equal amount goes for alcoholic beverages; half as much goes for tobacco; and a good deal more goes for recreation. We are living in an age, in short, in which the average man can afford to pay for whatever medical attention he requires with the exception of the really poor, who are a small minority."

"Yet what has been adopted in Britain, and what is sometimes proposed in the United States, is a doctrinaire nineteenth-century solution, socialized medicine, to a problem the terms of which have altered immensely in the twentieth century. In a society of material abundance, state medicine is an obsolete answer."

No one—except the extreme hypochondriac—likes to be ill, or likes to go to the doctor, or likes to pay a medical bill. So human nature being what it is, we often tend to exaggerate the cost of medical care out of all reason, forgetting the far greater sums most of us spend on non-essentials. It is good to be reminded of the facts, as Dr. Kirk has done.

From a Little Acorn

Parcel Post came into being at the beginning of 1913. It's a safe bet that few people then had any idea of how greatly this institution would grow, or of the direction its development would take.

It was envisaged as a limited service, handling small parcels, primarily for farmers and rural residents not adequately served by private carriers. Congress specified that the service should be self-sustaining, that it should not unnecessarily compete with private transportation services, and that it should supplement and not supersede private carriers.

Parcel post has gone astray from these intents. During much of its life it has been run at a loss—the accumulated deficit for the 1926-52 period was in excess of \$1 billion. It has and does unnecessarily compete with private carriers, in fields and in areas where private express service is perfectly adequate. And it has made it constantly more difficult for private carriers to stay in business. That some have is a tribute to their resourcefulness and standards of service.

Currently, there are various conflicting arguments as to the economics of parcel post and its influence, one way or another, on the post office deficits. But, these aside, it is clear that basic principles enumerated by the framers of the law are still being violated. Government in business is a bad matter at best.

TVA Lines Polluted!

The Tennessee Valley Authority, a news item says, has been buying more power from private utility companies—including, ironically enough, companies within the Dixon-Yates system. TVA has had to do this to meet its demands for service.

Inasmuch as TVA is regarded by socialist-minded people here and abroad as a veritable model of socialist planning and policy, this is a rather sad development. One hates to think that fine socialist power TVA generates being polluted by the entry into its lines of corrupt capitalist power. But, as the old saying goes, necessity is the mother of invention, and even TVA must do what it must do.

All kidding aside, this little development points to a fact of some importance. Electric power is electric power, whether produced by a socialized plant or a private plant. Either kind does the job of lighting the home, running appliances, turning the wheels of industry and agriculture, and so on. But, beyond that, there is a great difference. Socialized power is subsidized by taxes taken from all the people to serve a privileged few. It pays no taxes, or small sums in lieu of taxes. Private power, on the other hand, is made possible by the voluntary savings of individuals and institutions, it gets no subsidies, and it is one of the biggest taxpayers.

So, come to think of it, the country would be better off if a whole lot more private, tax-paying power polluted the TVA area.

Grassroots Opinion

NORWICH, N. Y., UNION: "There are few folks, these days, who take pride in their ability to do without the things they cannot afford."

BEAVER FALLS, PA., NEWS-TRIBUNE: "The Chinese Year of the Monkey — 4,654—has just begun. The year of the Sheep has just ended. One could wish that China's subjugated millions, instead of knuckling down to their Red overlords like sheep, would emulate the monkey during the coming year. For monkeys are individualists. Moreover—monkeys can bite!"

LOVINGTON, N. M., LEADER: "... As long as men are forced by the 'union shop' to join a union and pay dues to that union in order to hold their jobs, the union has no moral right to use one penny of those dues for political purposes. ..."

ABILENE, KAN., DAILY REFLECTOR CHRONICLE: "A good thing to remember in these days of all kinds of 'federal aids' is that the Federal government hasn't got a dime that it doesn't take away from people. So it can't give anything to a school system, building programs, county welfare, flood control, crop surpluses or anything else without first having taken it away from the people."

WEST GROVE, PA., INDEPENDENT: "... If we could only earn 1956 wages, pay 1925 prices and 1915 taxes, we would be sitting pretty."

Rev. Robinson and family were April 8, given by members of the church.

W. S. C. S. Circle 1 will have a meeting at the church April 18. Mrs. Reister and Mrs. Swanson will be hostesses.

Cecile Blumenschein gave a stork shower at her home in honor of Mrs. Moon. Guests were from Zion, Waukegan, North Chicago, Fox Lake, and Lake Villa. Mrs. Moon received many lovely gifts.

Irene Brown entertained the Officers Club of the Royal Neighbors at her home last Wednesday.

Mrs. Hooper, Mrs. Anna Nader and Mrs. Marie Hamlin were Sunday guests at the home of Mrs.

Bilek of Fox Lake.

Mrs. Francis Barnstable, Mrs. Olive Tweed and Mrs. Etta Sciacero spent Easter week end with Mrs. Tweed's daughter, Mrs. Hazel Radu of Denver, Colo. They enjoyed the Easter Sunrise services at Red Rock theatre, toured through Colorado Springs, Cave of the Wind, and the Garden of the Gods, and visited Central City, an old gold mining town of the 1800's.

Mr. and Mrs. Asco Barker of Rockford were Saturday guests at the Clarence Blumenschein home. Mr. Barker is a cousin of Mrs. Blumenschein.

Shirley Nader, Carol Effinger, Constance Schneider, Doris Blumenschein, Betty Schneider and the families attended the ice show at the Chicago Stadium Saturday.

The many friends of Mrs. Cora

Hamlin will be glad to hear she is well on the road to recovery and able to get around by herself.

Robert Bartlett, son of Mr. and Mrs. Fred Bartlett now stationed in Japan is writing short stories for several magazines and newspapers in the United States.

The Lake Villa Community Methodist Church will hold a special session of the Quarterly Conference, the highest governing body of the local church on Sunday, April 22, at 3:00 p. m. The purpose of the meeting will be to authorize the Board of Trustees to purchase land for a new church site; to authorize the Building Committee to develop plans for a new church; and to authorize the Finance Committee to establish an adequate program of financing the new church and church school. This important meeting is for all members of the Offi-

This is the oil you cannot buy—but which you get FREE in D-X gasolines... BOTH Regular and Ethyl. Get this free sample (while the supply lasts) at your nearest D-X Station. Use it! Test it! Prove it!

You Get

\$17.85* worth of this Oil
FREE!

In a year's driving with D-X... Either Regular or Ethyl

**Companion Product—
D-X Special
The All-Weather Oil**

It gives you springtime starts the year round and extra protection in hot weather. You'll never have to change grades to suit the temperature. It's "Weather-Proofed" and guaranteed.

You want this D-X bonus. Here's why:

- D-X upper-cylinder lubrication is the one real difference in gasolines. D-X provides extra mileage, more knock-free power, reduces costly repairs and assures longer engine life.
- Upper-cylinder lubrication is recommended by many automotive engineers, car manufacturers and car dealers.
- Almost all leading oil companies recommend and sell an upper-cylinder lubricant to be added to their gasoline.
- But D-X, which has pioneered upper-cylinder lubrication for over 20 years, gives you FREE a high heat-resisting oil, scientifically blended into D-X gasolines... BOTH Regular and Ethyl.
- And, we guarantee D-X Lubricating Gasolines to be better, with a written money-back guarantee.

Start getting this free \$17.85* gift with its added bonus of extra engine performance now. Stop in at your D-X Dealer's today.

*Based on 10,000 miles of driving in a year, at 15 miles per gallon. If you drive more, your "bonus" is greater.

SOCIETY EVENTS

Candle Light Service Unites Young Couple In Bonds of Wedlock

Marilyn Gail Jung became the bride of James Ellis Gaffron, in a candlelight service at 3:30 o'clock Saturday, April 14, at St. Peter's church. The Rev. Fr. John officiated at the service. The bride is the daughter of Mr. and Mrs. Nelson Jung of Cross Lake and the bridegroom is the son of Mr. and Mrs. Harold Gaffron of Lake Villa.

The bride, given in marriage by her father, chose for her wedding a bluish-pink satin floor length gown, her fingertip illusion veil was held in place by a crown of sequins and tulle. Her flowers were white roses and stephanotis. Miss Della Gee of Chicago served as maid of honor, while the Misses Sheila Badgerow and Karen Jung, sister of the bride were bridesmaids. They wore floorlength gowns of orchid taffeta with matching headpieces. Their flowers were white carnations and stephanotis. Little Nancy Jean Mills served as a miniature bride wearing a gown identical to the bride's. Jerry Hansen of Kenosha was best man while Joe Greco and Bobby Badgerow served as ushers. Miss Dorothy McGreal was soloist.

The bride's mother wore a pink nylon gown with blue accessories and the groom's mother was attired in an aqua lace gown with beige accessories. Their flowers were white orchids.

The couple greeted guests at a reception held at Pasadena Gardens following the ceremony. After a weekend in Chicago the young couple will be at home to their friends at Cross Lake.

Marilyn Gail Jung Becomes Bride

Miss Nancy Vanc Bride of R. L. Scott

The Rev. Howard C. Benson of the Antioch Methodist church heard the wedding vows Saturday of Miss Nancy Vanc and Robert L. Scott, son of Mr. and Mrs. Fred Scott of Antioch.

The bride is the daughter of Mr. and Mrs. Frank J. Vanc of Cross Lake. For the double ring candle light service, the bride was given in marriage by her father. The new Mrs. Scott chose a floor length gown of chantilly lace and nylon net over satin, with long sleeves and princess collar. Her fingertip veil was held in place by a crown of orange blossoms and tulle. She carried white orchids and stephanotis.

Mrs. Mary Ann Hills was her sister's matron of honor. She wore a blue crystalet gown and a yellow headpiece. Her flowers were yellow and blue carnations. Miss Doris Hanke served as bridesmaid, wearing a blue crystalet gown, with a blue headpiece. Her flowers were pink and blue carnations.

Ray Scott was best man for his brother, while ushers were Al Nordgaard and Henry Glenn.

Miss Sylvia Beelow accompanied at the organ by Mrs. William Dow, sang "I Love You Truly" and "Always."

The bride's mother was attired in a beige gown and wore a corsage of pink carnations. The groom's mother wore an orchid antique taffeta gown and her flowers were pink carnations.

The young couple are both graduates of the Antioch High school. Following the ceremony, the couple greeted the guests at Hastings Y. M. C. A. Camp. They left for a wedding trip to the Smoky Mountains, after which they will reside at Lorton, Virginia, where Mr. Scott is stationed with the U. S. Army.

Old Time Dance Club Re-elects President; Fifty Attend Dance

The last dance of the winter season schedule sponsored by the Old Time Dance Club of Antioch was held last Saturday night in the Antioch Legion Home. Fifty couples were on hand to enjoy the evening and take part in the annual election of officers for the club.

Mr. and Mrs. John L. Horan were returned to office as president for another season. Mr. and Mrs. Arthur Wertz, Antioch, as secretary; and Mr. and Mrs. Loy Olcott of Russell, Ill., as treasurer.

The outgoing secretary was Mr. and Mrs. John W. Horan and the outgoing treasurer was Mr. and Mrs. Homer White.

One more dance party has been added on the schedule by accepting the invitation of Mr. and Mrs. Walter W. Ullick, Grammercy Hill Farm, near Barrington, Ill., for Saturday, April 28.

Membership in the club has reached sixty-five.

O. E. S. OFFICERS HOLD MEETING MON. EVE'G.

Members of Antioch Chapter O. E. S. Officers club held a meeting Monday evening at the home of Mrs. Margaret Pincombe. Plans were made to hold a roast beef dinner Saturday, May 5th at the Masonic hall.

Mrs. Lillian Woods will serve as chairman of the affair assisted on the committee by Mesdames Theodora Kutz, Margaret Pincombe, Ann Heath, Joseph Kirchbaum, Pat Polsgrove and Sadie Keeney.

Dinner will be served from 5 to 7 p. m.

Following the business session, luncheon was served by the hostess.

Antioch Women's Club Informed of Education For Retarded Children

The Antioch Woman's Club met at the Scout Home on Monday afternoon where Mrs. Paul Thiele of Waukegan explained the Retarded Children's Educational Society of Lake county. She also showed movies of the children at their privately financed schools in the county.

Colored slides of the Mediterranean Area were shown by Clarence Spiering which covered part of a trip with his wife.

Winners were announced for music camp scholarships. The high school students selected were Jay Cribb, trumpet player, and Celia Holjem, clarinetist.

Mrs. Morris Pickus reported on her local work in behalf of a county health unit.

The nominating committee has been at work preparing a new slate of officers which will be presented at the closing luncheon. Assisting Mrs. Edward Jacobs on the committee are Mesdames John Brogan, Anthony Scully, Charles Solar, Dudley Kennedy and Irving Elms.

Closing the club year will be a luncheon and card party at Liggett's Holiday Inn, Brown's Lake, Burlington, Wis., on Monday, May 7. Mrs. Jacobs has asked that reservations be made with her or members of the committee for that day by May 1.

Mrs. L. C. Scott was in charge of the monthly party for Downey hospital patients on Tuesday evening. Assisting her were Mrs. Donald Francisco and Mr. and Mrs. A. H. Kaufmann. Mrs. Grace Timmersman played the solovox.

Engaged

Miss Sheehan

The engagement of Miss Diane Sheehan, to Mr. Joseph Pechulis, Jr., is announced by her parents, Mr. and Mrs. D. E. Sheehan, 1226 Victoria street. Mr. Pechulis is the son of Mr. and Mrs. J. R. Pechulis, Beach Grove rd., Antioch.

Mr. and Mrs. Richard Carter and children of Dayton, Ohio, are vacationing at the home of Mrs. Carter's parents, Mr. and Mrs. N. E. Sibley. Mr. and Mrs. A. Wayne of the North Shore of Long Lake returned Thursday, April 12, after a month's vacation with relatives and friends in Chicago.

Gets Wrestling Letter

Peter Tiffany, son of A. J. Tiffany of Geneseo, Ill., a former resident of Antioch, received his letter from Augustana College at Rock Island, Ill., for his participation in college wrestling.

Jean Mueller President of V.F.W. Auxiliary

Sequoia Auxiliary of the Veterans of Foreign Wars elected Jean Mueller as its new president in a recent meeting at St. Ignatius' hall.

Others elected that night were Laura Swanson, senior vice president; Grace Kersten, junior vice president; Lillian Burnette, treasurer; Gertrude Flint, chaplain; Ellen Flint, conductress; Kate Vekkest, guard; and Nellie Hanke, trustee for three years.

Delegates elected were Lydia Edwards and Grace Kersten. Alternates are Lucille Fortmann and Deborah Van Patten.

Installation will take place May 5 at St. Ignatius' hall. It will be a joint installation with the post.

Chicago Woodwind Quintet

(continued from page 1)
French horn; and Ralph Johnson, flute.

The group was organized to provide a greater understanding and enjoyment to the art of woodwind chamber music.

Adding variety to the program will be the soprano selections of Miss Madgelene Popoff of Waukegan who brings Miss Annie Ruth Parr to accompany her.

The program is as follows:
Adagio and Allegro Somis
Quintet Klughardt
Allegro non troppo
Andante grazioso
Allegro Vivace
Adagio—molto vivace
First vocal group:
Caro Nome Verdi
Love Is Where You Find It Brown
Menuet and Hunting scene Leclair
Intermission
Three Short Pieces Ibert
Second Vocal Group:
Care Selve Handel
Chere Nuit Bachelet
Ava Maria Bach-Gounod
The Little Nigar Debussy
The Girl With the Flaxen Hair Debussy
From the Diary of a Fly Bartok
Entrance of the Little Fauns Pienre
Polka from the Golden Age Ballet Shastakovich
Pastoral Stravinsky
Flight of the Bumble Bee Rimsky-Korsakoff

Soloist

Miss Madgelene Popoff

Miss Madgelene Popoff, Waukegan, who will be featured in concert with the Chicago Symphony Woodwind Quintet, Friday evening at Antioch High School auditorium. The concert is a presentation of the Woman's Society of Antioch Methodist church.

New Center at L. Shangri-la

The Lake Shangri-la Woodlands Assn. held a grand opening of its Community Center Saturday and Sunday. G. Elselder, president has invited Antioch residents to inspect the building. A pre-announcement of the approaching opening arrived too late last week for publication.

Mr. and Mrs. Jos. E. Horton and Mr. and Mrs. Roy Burdick attended the Sinclair Spring Meeting and dinner at the Edgewater Beach hotel last Thursday evening.

Central High Baseball Team Still Is Unbeaten

Central High, Paddock Lake, Wis., baseball team is piling up an impressive total of wins in their conference on the baseball field this year.

Last week they edged out the 1955 State Champion Waterford high school team, 6-5. They met Cedarburg Tuesday, with a score of 1-0. Ben Zeihen pitched all the way for Central, allowing only 3 hits and striking out 15.

It was a pitcher's duel all the way, with Central batsmen collecting only 2 hits off Cedarburg hurling, and collecting the only tally of the game on the two bunched hits.

Women of the Moose Initiate Six Candidates

The Antioch Chapter No. 735, Women of the Moose held an initiation at its meeting last Thursday. Elected into the regular chapter were Frances Latal, sponsored by Gloria Carrick, Ann Gruner, sponsored by Arvis Nelson, Veronica Prible and Helen Sterbenz, sponsored by Mildred Stoner, and Helen Nelson, sponsored by Erna Toft.

One home chapter member, Irene Gable was sponsored by Gloria Carrick.

The homemaking committee provided entertainment. Rita Hilbert played the accordion and Carrie Braund played the saxophone. This was followed by community singing and dancing.

It was announced that the Academy of Friendship will have its initiation at the meeting tonight. Homemaking chairman, Leone Benes and her committee served refreshments.

Mr. and Mrs. Paige Parkinson of Onarga, Ill., were week end visitors of Mrs. Effie Nelson and Mr. and Mrs. Irvin Pofahl.

Auxiliary News

Illini Girl Stater Chosen
At a meeting of Antioch Unit, American Legion Auxiliary, held Friday evening, April 13, the Illini Girl State chairman of the unit, Mrs. Ann Heath, announced that Rosa Elena Mena, a junior student at Antioch High school had been selected by the faculty and students of the school, to be the girl sponsored by the Antioch unit to attend Illini Girl State at McMurray college in Jacksonville, Ill., June 19-26. Jeanne Filiatreault was chosen as alternate. This year there are more girls than ever before who will have the special citizenship training given in the Auxiliary's 49 Girl States. There is one in the Panama Canal Zone as well as in every state. They are sure to be an important influence in high schools throughout the nation; an influence that will help inculcate the attributes of good citizenship in the nation's youth.

At Girls States they study and practice the operation of democratic government, but they learn for more than the mechanics of government. They learn a new reverence for the Flag of the United States—a new sense of gratitude, a new feeling of responsibility for the high human values that flag symbolizes. They learn what a privilege it is to live in a country with freedom of action, thought and speech, to seek happiness in their own way and to worship God according to their own conscience.

Essay Winners

The essay contest conducted by the Auxiliaries throughout the schools of the nation has drawn to a close. Winners of the contest in Antioch schools are Faye Mann, 1st in Class I; Patricia Pomys, 2nd, and Judy Keulman, 3rd, both from St. Peter's school, also in Class I.

Tom Sanhamel, 1st in Class II; Diana Olson, 2nd; Lois Wohlfell, 3rd. Honorable mention in Class I to Cleon Schley, Pamela Drucher and Donetti Stratton. In Class II honorable mention went to Joan Haydon, Lillian McNeil, Paula Zeien and Joan Burton.

Cash awards were given the winners by Antioch Unit.

Unit Receives Citation

Unit Rehabilitation chairman, Mary Ellis, gave a very interesting report of the Patriotic conference session held in Michigan on March 24. She also reported that Antioch Unit has received a Citation of Honor for outstanding cooperation in serving disabled Veterans of World Wars I and II and the Korean conflict through contributions to the nine point rehabilitation program.

Pan-American Program

The Latin American country studied by all Auxiliaries this year is Haiti. Evelyn Sedevic, Pan-American chairman of Antioch Unit, gave a most interesting review on the study of Haiti.

After the business of the meeting was concluded, a social hour was spent listening to a jewelry demonstration after which refreshments were served by Mary Runyard and committee.

Sequoits To Tangle.....

(continued from page 1)

bases loaded after Frank Walsh, Sid Parker and Bill Barnstable had come through with singles.

Lonnie Christensen's triple highlighted the second inning.

In the third inning the Rams took advantage of Antioch misplays and with a couple of hits scored six runs.

The game only went four and one-half innings because of darkness.

Those Were the Good Old Days -- Or Were They?

The accompanying picture is that of Main st., Antioch back in 1905—the horse and buggy days. Taken to the north. On the right is the building newly re-modeled, which houses Thompson's Tavern. The building next to it is the one now occupied by Marianne's. Antioch was a busy town then just as it is now.

Prices Were Low in 1906, But Wages Were Low Too

ANNUAL BANQUET OF
RETARDED CHILDREN'S
SOCIETY TO BE MAY 26

Mrs. H. A. Fuller of Libertyville was appointed chairman of the third annual banquet to be held by the Retarded Children's Educational Society of Lake County May 26th at the Butler Building of Libertyville-Fremont High school.

At the society's business meeting on April 9, in the Gurnee Grade school, President Arthur Leppen appointed the following committee to prepare a slate of candidates for election in June:

Mrs. Victor Mitrieff, chairman; Robert Moscherosch, Norman Lee, Mrs. Raymond Curran and Wesley Brown. Leppen and Frank Buntin, secretary, have served for two years in their respective offices.

The meeting was highlighted by presentation of a check for \$1508.50 to the society by Dr. Irwin Slavin, president, and Joseph Temaner, civic affairs chairman, of the Waukegan-B'nai B'rith. The money will be used for the education and training of pupils at the Liberty, Garden, and Parkside schools.

Guests at the meeting were Mrs. Willard McDonough, who for the past two years, has been treasurer of the Y. W. C. A., and Dr. and Mrs. Floyd W. Castator, owners of the "Pixie Shop," new gift shop on Grand ave., Waukegan. Handicraft articles made by pupils of the Garden School, who are mentally retarded, will be on display and sold at the shop.

Won't Give Away Pets

Amiel Feyerabend, auto dealer, says that he expects to buy two burros he expects to give away with Mercury-Lincoln sales and not take the two belonging to his children as indicated last week. They are family pets. One will be given away this month and one next month.

Chicago Model Again
To Speak at G.A.A.
Banquet on Saturday

Vera Voyta, Chicago model, will be the speaker for the annual mother-daughter banquet of the Girls' Athletic Assn. to be held at 6:30 p. m. Saturday in the girls' gym at the high school. Miss Voyta spoke at the same banquet a few years ago and is returning by popular request.

A crowd of 200 is expected and awards will be presented to about 90 girls with the awarding of sportsmanship trophy to a senior girl to be a highlight of the event.

Assisting Miss Mary Donovan, faculty adviser, in making plans are: Lillian McNeil, decorations; Pat Hamlin, program; Donna Ballwanz, nut cups; Joan Forbrich, programs, Caroline Kroepelin and Joan Mair, seating; Judy Hostetter, place cards; Jackie Martin, theme and Marian Stowe and Marilu Bushing, menu.

Alumni will return to serve the banquet under the direction of Marge Walsh.

Hold Religious Assembly

St. Peter's Church held a religious assembly on Monday morning with Fr. Robert Cook of Lake Forest in charge. It began with an 8:30 mass with talks following on confession, the blessed sacraments and purity. Students attending were dismissed from their high school classes.

The church has set the last Sunday in July for its picnic and festival.

Knickelbein Hospitalized

Ed. Knickelbein, owner of Ed's tavern, Main st., Antioch, was taken to Victory Memorial hospital, Waukegan, Sunday. He is believed to have suffered a heart attack, complicated by pneumonia.

Dr. Deering Improved

Mrs. D. N. Deering is reported to be much improved this week. He has been in Hines Hospital, Chicago, for the past three weeks. He will remain there for an indefinite time for continued observation.

Board in Special Session

The village board of trustees will meet in special session Monday evening to let a contract on employees' liability insurance, receive bids on the auditing of the books, and receive requests for renewal of liquor licenses.

Re-alignment of High
School Conferences Is
Tabled at Meeting Wed.

Re-alignment of the Northwest Suburban High School Conferences was not acted upon at a meeting of the Suburban Conference association held Wednesday at the Palmer House, Chicago.

Albert Dittman, principal of Antioch Township High school and secretary of the association, said that although a report on the matter was read by T. R. Birkhead, a former principal at Antioch, no action was taken. The matter will be considered at the May meeting.

VanderPyl Wins Over
Oilschlager at Lake
Villa for Magistrate

Robert VanderPyl was winner in an election Tuesday to select a police magistrate for Lake Villa. The total cast was 114 with VanderPyl getting 61 votes and Oilschlager 53. Oilschlager's vote was surprising considering the fact that he was a "write-in" candidate.

Lake Villa will have a police magistrate for the first time in many years.

For the bigger things in life, U. S. Savings Bonds are the answer. They are completely safe and sound.

Millions of people buy U. S. Savings Bonds regularly through the easy, automatic Payroll Savings Plan.

People stop growing with maturity, but Series E Savings Bonds keep right on for another 10 years.

You may work only from sun to sun, but a Savings Bond works for you 24 hours a day—every day in the year.

With those who know investments best, the U. S. Savings Bond has no superior.

U. S. Savings Bonds are backed by the credit of the United States and guaranteed against loss in any form, including theft, destruction or loss of the bond.

The Series H Bond, younger sister of the popular E bond which is now 15 years old, has been issued only since mid-1952, will pass the 3 billion dollar mark in sales before it is four years old.

Eleven Grass Fires.....

(continued from page 1)

The firemen started backfires to protect houses at the Howard Smith subdivision.

Fire Chief Simonsen said that no evidence was obtained that could lead to an arrest for starting the fires. He warned that it is against the district fire law to burn trash or grass without a permit.

The ordinance is as follows:

Section 1: That hereafter it shall be unlawful for any person to start or cause to be started, or knowingly permit to be started or set on any premises within the First Fire Protection District of Antioch Township, any fire, commonly called a grass fire, for the purpose of burning grass, weeds, leaves or other combustible material, without first obtaining a permit therefor from the Chief of the Antioch Fire Department.

Section 2: Any person desiring to set such a fire shall make a written application for such permit addressed to the President and Board of Trustees of the First Fire Protection District of Antioch Township, which application for permit shall state the location where such fire is to be set, the approximate size of the area to be burned over, and the number of persons who will be in charge of said proposed fire to guard against its getting out of control. Such application shall further state that the applicant will be responsible for and assume all costs and damages that may result from the setting of such fire, including the costs to the First Fire Protection District of Antioch Township of the operation of its fire department, in case such fire department shall be called to extinguish such fire, or any fire resulting therefrom.

Section 3: Upon the filing with the Fire Chief of such application and complying with the requirements therein before described, said Fire Chief shall, without cost to the applicant, issue a permit pursuant to such application, which permit however, shall be good only for the day on which it is issued, and provided, that no permit shall be issued on such application on any day when the weather is windy or stormy, making the setting of such a fire hazardous.

Section 4: Nothing in this ordinance shall interfere with burning of leaves or other rubbish by the owner or occupant of the premises on which same are burned if such leaves or rubbish have been raked and piled and the fire is being attended in compliance with the provisions of any other ordinance.

Section 5: Any person violating the provisions of this ordinance shall, upon conviction thereof, be subject to a fine of not less than \$5.00 nor more than \$50.00.

Two fires were fought at the same time yesterday afternoon. While one crew of firemen were fighting a slough fire east of the village starting at 12:10 p. m., another crew fought a grass blaze at the Burt Anderson property on Rte. 21, near Loon Lake.

The slough fire was a big one, burning as far as Little Silver lake. It completed burning what was left from a previous fire. It took the

firemen about three hours to extinguish the slough blaze.

Latest grass fire occurred today at 11 a. m. at Grass Lake about three blocks west of the Grass Lake Food Mart. The blaze set fire to several vacant cottages causing an estimated \$200 damage.

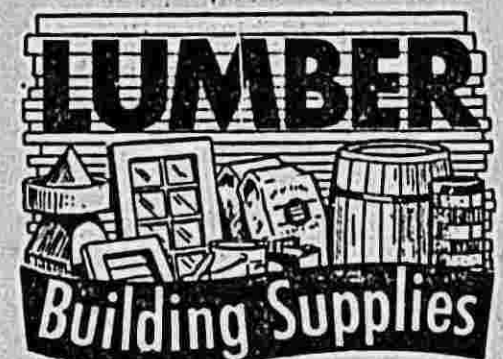

The Series H Savings Bond, offered since mid-1952, is specially designed for those who want the complete safety and good return of the popular E bond, but want the return in the form of current income, by Treasury check twice a year.

Before you buy a home, make sure it has

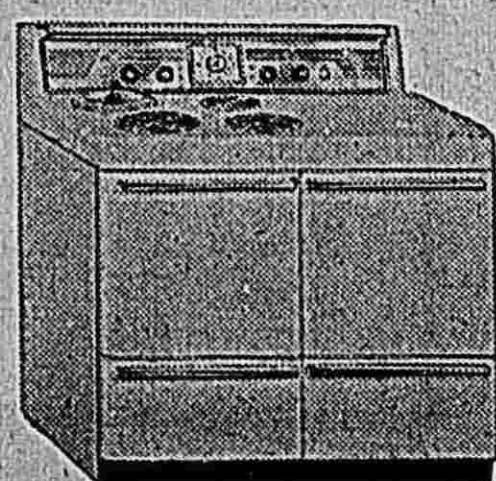

100 PLUS

WIRING!

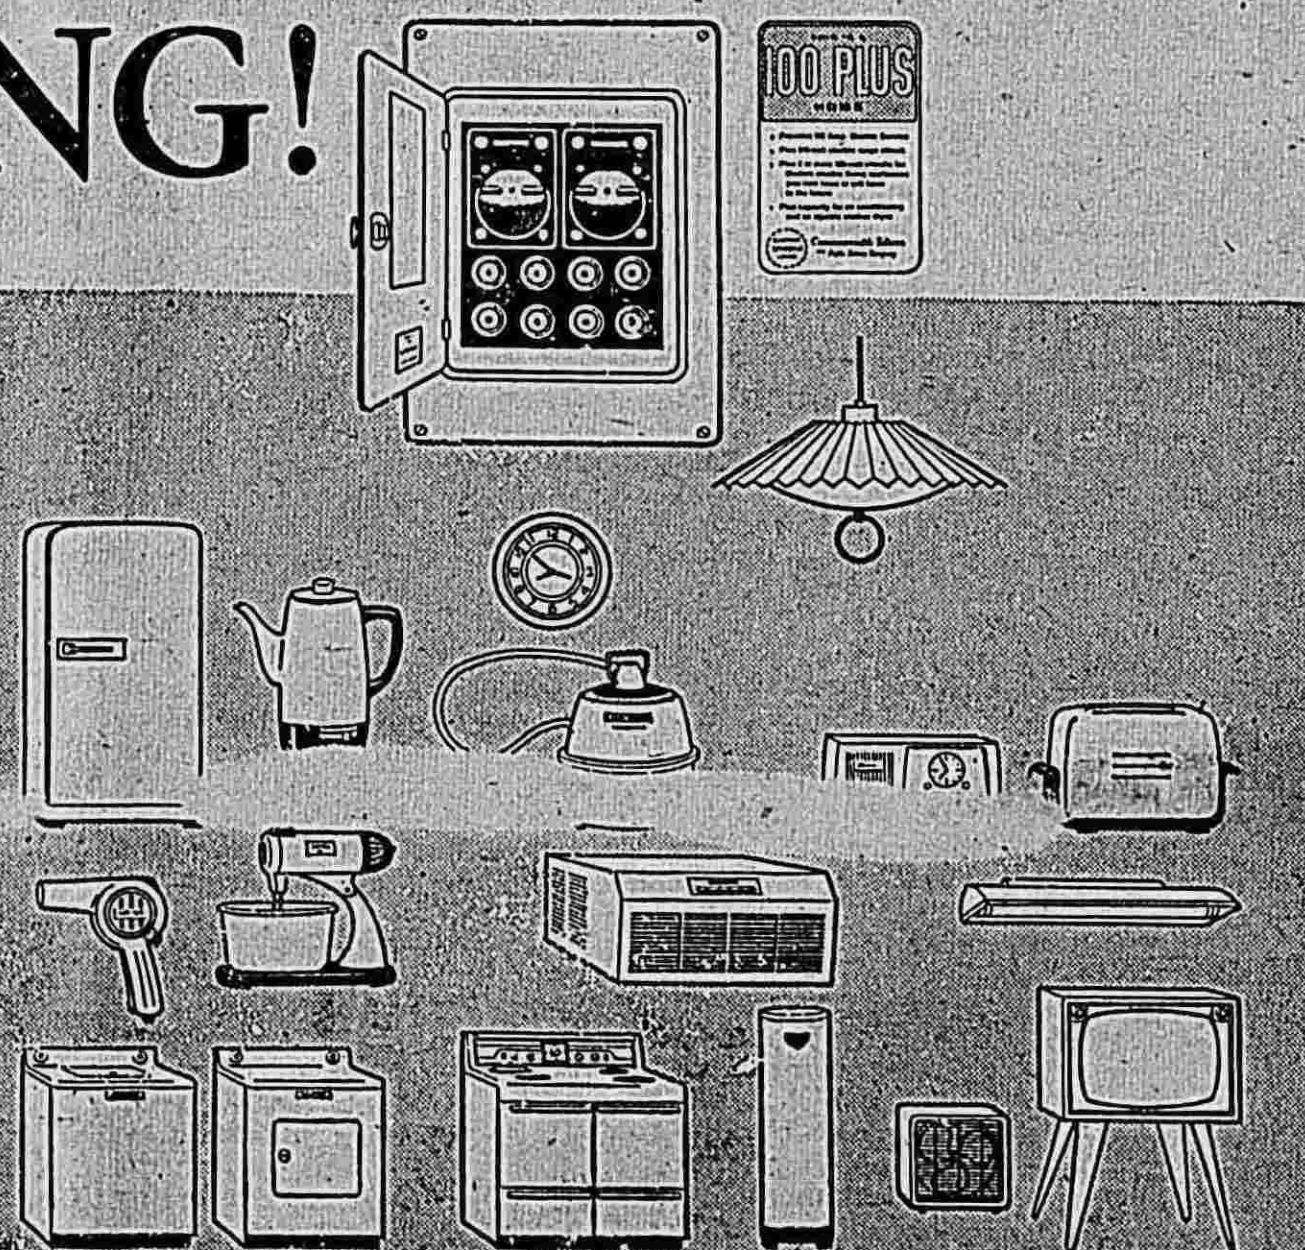

What 100 PLUS wiring is:

1. A modern 100-ampere fuse box (the electrical distribution center of your home) supplies the "housepower" you need today.
2. Plus a 240-volt wiring circuit for the new electric range in every 100 PLUS home.
3. Plus 8 or more 120-volt circuits for Modern Electric Living appliances you now have or will have in the future.
4. Plus capacity for air conditioning and an electric clothes dryer.

A new automatic electric
range in every 100 PLUS home!

A beautiful, new, modern electric range means the cleanest, coolest, fastest cooking you have ever enjoyed. And it is yours, installed and ready to use—conventional or built-in—in any 100 PLUS home that you choose!

HERE'S WHY YOU NEED 100 PLUS WIRING: Shown above are a few of the sixty-some electrical appliances in use today. Your family probably has a number of them now. And in time, you'll add many more. This is why, when you buy a new home it's a good idea to make sure your home has the electrical capacity or "housepower" you need for living better electrically. Look for the home with the 100 PLUS sign and be sure.

The home that has this sign has the kind of modern wiring we endorse . . . the kind you need to LIVE BETTER ELECTRICALLY!

No other truck can offer you as much as a new 1956 GMC

LOOK at the facts—no matter what kind of truck you need.

GMC's new light-duty power plants have as much as 16.2% greater displacement than the nearest competition. H. P.'s been upped as much as 20%. V8's are the latest in short-stroke design.

In the new half-tonners, a brand-new fast-ratio cruising axle gives you all the efficiencies of overdrive. And it's an option at a fraction of overdrive's usual price.

A new ride stabilizer gives Blue Chip

light-duties remarkable new riding comfort. No need to fight the steering-wheel—even on the poorest roads.

All GMC's now have a 12-volt electrical system. Tubeless tires are standard equipment. And a new boulevard styling makes a GMC far and away the best advertisement you can run.

In short, new 1956 Blue Chip GMC's are just about as impressive a line as you've ever seen. Values are even more remarkable. Drop by and see for yourself!

See us, too, for Triple-Checked used trucks.

Illinois Employers Unite Against Adding Private Pay To State Unemployment Benefits

The farmer, the Main Street shopkeeper, the working man—in fact, the general public—will be vitally affected if workmen receiving state unemployment compensation are also permitted to receive supplemental jobs pay from their employers at the same time.

Bertram J. Cahn, chairman of the Information Committee on Unemployment Benefits, said the addition of the private benefits to state unemployment pay will result in higher prices for all, increased state UC costs, fewer jobs, and less job stability.

Supplementation is being opposed by Cahn's committee, which is comprised of the Associated Employers of Illinois, Chicago Association of Commerce and Industry, Illinois Federation of Retail Associations, Illinois Manufacturers' Association, and the Illinois State Chamber of Commerce.

A ruling permitting addition of the private benefits to state unemployment pay is being sought by the CIO-UAW as a result of contracts signed last summer with a number of companies in Illinois, including the Ford Motor Co., and General Motors Corp. The Guaranteed Annual Wage, which was unsuccessfully sought by the union, is not involved in the situation.

At the present time payments made to laid-off workers by their employers are considered "wages" in Illinois and are deductible from the state UC pay.

"While only a comparatively few thousand people working in Illinois are immediately concerned with the pending contracts, any ruling by the State Labor Department will have serious consequences for every one of the 3.5 million persons working in the state, as well as for the 180,000 employers and for every taxpayer," Cahn pointed out.

"Smaller stores and companies will share the costs when larger companies operate under supplemental pay contracts, and may even suffer loss of business."

"The supplemental employers will devise methods of producing materials and supplies customari-

BERTRAM J. CAHN

ly produced by the outside, smaller suppliers, and will adopt a policy of more selective hiring. Jobs will be fewer, and workmen employed in some smaller companies will face an uncertain future."

Cahn added that older employees with longer seniority will be giving up as much as \$100 a year in salary which will be devoted to jobs pay for younger employees more subject to layoffs. In addition, he said, the supplemental pay is unfair to workmen not covered, and even unfair to those covered because of the unequal benefits which will result.

Cahn's committee has contended that the supplemental pay plan is contrary to the existing law in Illinois, and that if supplementation is desired the legislature should be asked to change the state Unemployment Compensation Act.

Relish To A Gourmet's Fancy

Do guests shower you with compliments on the special little taste treats you always include in your menus? Surest way to achieve a reputation as a true gourmet is to make your own sauces, preserves, relishes and such. Put them up in jars during the harvest season, and your shelves will hold a variety of delicacies at your finger tips the year 'round.

To turn the trick start with a basic recipe, then add your own choice of seasoning. For example, here's relish recipe, zesty in itself, and a perfect foil for your own culinary artistry. Perhaps you'd like a dash of curry, chili powder or garlic. Your taste may run to the less commonly used spices—cardamom or cummin. It's all up to you, and you'll have fun testing and trying until you've found the perfect blend.

Cucumber, Onion and Pepper Relish

- | | |
|--------------------------------|--------------------------|
| 4 cups chopped cucumbers | 1 tablespoon salt |
| 2 cups chopped onion | 2 teaspoons mustard seed |
| 1 cup chopped green pepper | 2 teaspoons celery seed |
| 1 cup chopped sweet red pepper | 1 to 2 cups sugar |
| 1 small pod hot red pepper | 4 cups vinegar |

Wash and drain vegetables. Peel onion and remove seeds from peppers. Chop and measure vegetables. Mix all ingredients. Cook until vegetables are tender but not soft. Taste, and add more seasoning, as desired. Pour, boiling hot, into hot jars. Seal at once, as directed by the manufacturer.

TRANSPORTATION THRU THE U.S.A.

Vigorous competition in the American manner—subject to wise restraints imposed by Congress—has produced the finest competitive transportation system in the world—not despite legislative regulation, but largely because of it.

Seven million trucks serve the U.S. Inter-city trucks moved 125 billion ton-miles in 1949 and in 1955 hauled 245 billion ton-miles of cargoes vital to the daily living of the Nation. Fast, flexible, economical trucks service is indispensable to our present prosperity.

Domestic airlines, the railroads and waterway carriers are all currently enjoying the greatest prosperity in their history. Each year sees further growth and the future looks promising.

Passenger car usage is booming! From 36 million autos registered in 1949, the number jumped to 51 million in 1955—and it is still rising. Inter-city and local buses serve millions, and our pipeline system continues to grow in importance to the Nation.

Material compiled by American Trucking Association, Inc.

Jerry Quilty Injured In Car Accident Sunday, Suffers Loss of Blood

Jerry Quilty, 20, son of Mrs. Mary Ann Quilty of 975 Spafford st., is making satisfactory recovery from head injuries received early Sunday morning in an automobile accident on Loon Lake rd.

He was returning home alone from a wedding reception in Waukegan when he lost control of his car on a curve and left the road. The impact of the sudden stop threw him against the windshield and a lengthy wound was cut in his scalp.

The Antioch Rescue squad rushed him to Victory Memorial hospital in Waukegan where 23 stitches were taken in closing the wound. Because his type of blood was not known, it was necessary to type his blood before any plasma could be given him. He was in a very weakened condition before the blood was given him and then it was necessary to give him four pints to revive him.

He is expected to leave the hospital as soon as his strength is recovered.

Quilty is a former Antioch High School basketball star.

BOWLING

The Pinspotters Friday, April 13

Smart's County House took high team series with games of 762-766-798—2326 total.

M. J. Nelson was high individual scorer, having games of 194-212-177—583 total. Tess Weber was not too far behind with games of 168-212-198—total 578.

Awards Provided in 4-H Frozen Foods Program

An increased number of incentives are being offered for the 100,000 4-H Club members participating in the 1956 National 4-H Frozen Foods Program.

A new addition to the Honor Roll of National Donors of 4-H Awards, the Whirlpool-Seeger Corporation of St. Joseph, Mich., is providing medals for four county winners this year, double the number previously offered. State winners in the program will receive all-expense trips to the National 4-H Club Congress in Chicago, in place of a \$50 U. S. Savings Bond. At the Congress, six national winners will be named and each presented a \$300 college scholarship.

The National Frozen Foods Awards Program has become increasingly popular among 4-H members since its inception in 1945. Through the program, club members learn to use freezing equipment advantageously and economically, discover the local foods best adapted to freezing, and develop skill in preparing, packaging and freezing meats, poultry, eggs, fish, fruits and vegetables.

The program is conducted by the Cooperative Extension Service, and the awards arranged by the National Committee on Boys and Girls Club Work, Chicago. Full information is available from county Extension offices.

Science Teacher Wins Scholarship
Elvin L. Conway of Central High School at Salem, Wis., has resigned his teaching duties effective at the end of the present school year, to accept a National Science Foundation Scholarship. Mr. Conway was one of the candidates that qualified for fifty math and science scholarships throughout the midwest. He will attend the University of Wisconsin next September.

Mr. Conway was a charter teacher at Central and in charge of the science department. For the past four years he has taught chemistry, biology and physics. He has promoted a very active Science club. Many of his students have won awards at the science fairs held in Kenosha and Milwaukee.

Applications for his successor will be announced at a later date.

Fathers, 'Be Prepared'; Junior May Sound off On Forestry Techniques

If your son is a Boy Scout, get set to hear about forestry techniques, forest fire prevention and the importance of good forest management from him during the next few weeks.

Illinois' Boy Scout councils are distributing more than 4,000 special forestry kits, supplied by the state's forest industries, for use by troops beginning in April, Forestry Month for the nation's 1.5 million Boy Scouts and Explorer Scouts.

The kit was designed and prepared by American Forest Products Industries, national sponsor of the American Tree Farm System and the Keep America Green forest fire prevention program. AFPI represents the nation's wood-using industries.

"Illinois' Boy Scouts will carry on an effective forestry program this season with the aid of the wood-using industries," A. C. Foley, Paris, Ill., chairman of the Illinois forest industries committee, state group representing AFPI.

Scout officials termed popularity of the kit "unprecedented." Quantities have been requested by every one of the nation's 542 Boy Scout councils, and some 88,000 kits are being furnished.

EXON MOTOR SERVICE
Daily Service from
Antioch to Chicago
PHONE LIBERTYVILLE 2-3570
Chicago Office and Warehouse
2519 S. Artesian Ave.
Tel. Cliffside 4-1127

Forestry activities outlined in the kit range from a rough and tumble loggers' field day and visits to tree farms, tree nurseries, and forest industry plants to radio and television forums on conservation and forestry. It also includes a year-long forestry achievement program through which troops and individual Scouts may earn a "conservation award of merit" to be provided by AFPI.

Forest industries are offering many local troops assistance in making successful use of the materials, and many industry foresters have volunteered their services, industry spokesman said.

TODAY'S BIG SPECIAL

at a price that will open your eyes

(and Purse)

IF YOU'RE in the market for a real buy, take a good look at this one.

It's a 1956 Buick SPECIAL—which means, of course, it's a big car.

But look again at the price news it carries.

It tells you this big Buick SPECIAL can be yours for only a few dollars more than the price of the well-known smaller cars—for even less than some models of those very same cars. (And the price we'll show you proves how true that is.)

The gospel truth is—this brawny new beauty is the biggest bundle of high style and hot performance ever offered in Buick's lowest-priced Series.

Even that, though, doesn't completely explain why Buick outsells every car in America except the two well-known smaller ones.

To understand the big reason, you've got to know something about how much more pure automobile you get for your money in a 1956 Buick—

The extra satisfaction of commanding Buick's wallowing new 322-cubic-inch V8 engine—

The extra joy and comfort of Buick's new buoyant ride, Buick's matchless new handling ease, Buick's extra solidity of structure—

The extra thrill that comes from the world's most modern transmission. For, at your option, you can also have the new double-action take-off—and the extra gas-saving mileage—of Buick's advanced new Variable Pitch Dynaflo.

Those are some of the things we'd like you to know, firsthand, about the 1956 Buick. And we'll let the car itself—and that low price tag—do the talking. Will you come in—real soon—this week maybe?

†New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Health Talk

The voice is the most important characteristic in communicating with others, yet some persons are inclined to take the production of sounds for granted, only to wonder what happened when they are unable to speak. On the other hand, understanding the voice inspires a special care of the larynx, according to the Educational Committee of the Illinois State Medical Society in Health Talk.

The larynx, commonly called the voice box, is situated in the middle portion of the neck, below the tongue. When it is prominent, as is quite common in men, the larynx is referred to as the Adam's Apple. The framework of the larynx consists of cartilages, which we feel on pressing the neck, muscles and ligaments. Within the framework or two vocal cords, which are band-like structures. By stretching and shortening, these vocal cords open and close and account for sounds of various pitches. As air is expelled from the lungs, it passes between the vocal chords and makes them vibrate somewhat similar to the reed of an oboe. The pitch of the voice is determined by the rapidity with which the cords vibrate, and this rapidity is controlled by the length of the vocal cords, and their tension. This explains why the male voice is lower than the feminine voice. The male larynx is larger and the vocal cords are longer.

While the origin of the sound is the larynx, its character and the words are produced by the coordination of other parts of the body. As a column of air strikes the vocal cords, vibrations are set up, but the resonance comes from the action within the chest, the throat, the mouth, nose and the nasal sinuses.

The lips, palate, teeth and tongue interrupt the sounds, making them become syllables or words. The entire action is coordinated by nerve impulses sent down from the brain.

Many conditions can affect the larynx, ranging from an overuse of the voice through constant speaking, fatigue, infections, sensitivity to certain fumes or inhalants, to cancer of the larynx. In all hoarseness is the important single symptom. It may vary from a blurring of the voice to a hoarseness so severe that the patient can hardly be understood and may even be unable to talk. Some conditions that affect the larynx are present at birth, many develop in infancy and childhood, and many others occur as we grow older. But hoarseness is the important symptom and accounts for the term laryngitis and hoarseness being used interchangeably.

Persistent hoarseness should be investigated. While it does not always mean cancer of the larynx, an early detection lends itself more easily to treatment.

In fact any condition that blocks breathing through the nose helps to cause laryngitis. When this occurs large amounts of air then pass directly to the larynx without having been modified by first passing through the nasal tract, which is normal.

Understanding the larynx and the method by which tones are produced can help you to a better speech. Carefully controlled, deep breathing results in softer more relaxed sounds. Clear enunciation and articulation will make yours an improved voice.

Farmers to Receive Higher Milk Price

Higher milk prices at the farm in the Chicago market went into effect on Monday.

The price increase negotiated between Pure Milk Association and the Associated Milk Dealers on Wednesday of last week raised the price of fluid, or bottled, milk by 46c per hundredweight or 1c a quart. Federal action speeded up the effective date. Action by the U. S. D. A. allowed a change in the minimum pricing system which is operated by the Federal Milk Market Administrator in Chicago.

The Secretary of Agriculture announced this action was taken in the interest of orderly marketing. The minimum price will be raised to the level of the negotiated pricing agreement.

About 40 per cent of the Chicago market milk is used in Class I; therefore, dairy farmers will receive about 22c per hundredweight increase in their milk check.

The special ruling by the Secretary also applies to Federal Milk Marketing Orders in Milwaukee, Wis.; South Bend, Ind.; Dubuque and Davenport, Iowa; and Moline, Rockford, Rock Island, and Freeport, Ill.

Car Needs Attention After Long Months of Winter Driving and Hard Use

After a long, hard winter through all kinds of inclement weather, the family car should undergo a complete "stem-to-stern" change-over with the advent of spring-like weather.

During the winter months the average motorist, perhaps, is not as attentive to his car as he should be, and after the rugged ordeal of winter driving, it should be taken to a service station or garage for a change-over once the brunt of winter has passed.

Snow, ice, dirt and chemicals used for the removal of ice from the streets contribute heavily to the wear and tear of an automobile, it is pointed out.

For the sake of safety, efficiency and performance of your car, spring is the time for a complete mechanical check-up and change-over.

It is suggested that motorists make an appointment now with their favorite garage or service station operator just as they would consult their doctor for a physical check-up.

The spring change-over should entail the following:

—Drain the crankcase and refill with seasonable oil. As the weather gets warmer, a different grade oil is necessary.

—Complete chassis lubrication. The elements of winter take their toll and impair the efficiency of many working parts.

—Check transmission and differential. These are among the vital organs of your car.

—Check the automatic transmission. The strain of winter driving may have caused some damage, but should also be serviced.

—Drain anti-freeze from radiator and clean cooling system. This prevents overheating.

—Clean or replace spark plugs. Faulty or carbon-laden plugs waste gasoline, makes starting difficult and causes inefficient and costly operation.

—Replace oil filter. With the change of oil, removal of the old sludge-packed filter is a must.

—Check battery for re-charge or replacement. Winter takes a heavy toll in batteries, with more night

driving and more electrical accessories in operation.

—Check all lights and windshield wipers. For the sake of safety, these should be in perfect working order.

—Checking fluid in master brake cylinder. A car shouldn't be moved an inch without perfect brakes.

—Inspect tires carefully for cuts, breaks and bruises. The safety of you and your passengers depends greatly on the condition of tires. Rotation of tires prolongs their wear.

—Check the car's undercarriage for defects when on hydraulic lift. Rain, sleet, snowdrifts, mud and water can break or bend mufflers and tail-pipes, corrode or damage springs and shock absorbers and do considerable damage to the out-of-sight area of your car.

—Since the paint and chrome of your car has been subjected to punishment from the weather, the changeover should be topped off by a wash and polish job.

Your bank will order Series H. Savings bonds for you, if you want current income on a completely safe investment. They sell for \$500, \$1,000, \$5,000, and \$10,000, are redeemable at par after six months on one month's notice, and pay interest twice a year for nine years and eight months.

Airborne Computer Speeds Solutions

A recently developed airborne digital computer is now solving in one second the same number of problems that would normally require nine man-hours, at the same time meeting the aircraft industry's requirements for compactness, light weight and reliability.

Designed for use aboard American jet fighters and bombers, the new computer materially aids this nation's growing air superiority. Made up of transistors, instead of vacuum tubes, and "etched" circuits in place of conventional wiring, this computer has many advantages to assist combat crewmen in navigation as well as specialized combat techniques.

Extremely compact, it occupies only three cubic feet and weighs only 125 pounds, whereas a similar vacuum-tube computer with only one-half the capacity is four times heavier and would fill an average closet. The new computer also requires little power to operate.

Offering great operational reliability under service conditions, this "electronic brain" is specially designed to withstand rigorous environmental conditions experience in present and future high-performance aircraft.

In mathematical terminology the computer's capacity is indicated by its ability to continuously integrate 93 quantities simultaneously. It can generate continuous solutions of differential and trigonometric problems. It automatically and continuously processes in-flight data.

W. L. Strahan, Zone Mgr. Of Investors Services

W. L. Strahan, First st., Antioch, announced this week, that Investors Diversified Services, Inc., of which he is zone manager, has reached the \$2 billion mark in assets under its management.

Mr. Strahan, who moved here March 1, after purchasing the Henry Rentner home on First st., said that the 62 year old investment corporation with which he is associated ranks among the top 25 financial institutions in the nation and is the largest investment organization of its kind in the nation.

Applications for State Highway Patrol Jobs to Be Taken Until Apr. 30

Applications for position as Highway Police patrolmen will be taken by the State Police Merit Board through April 30, Chairman Harry A. Gardner announced today.

Suitable candidates will be given written screening examinations in Chicago and Springfield about the middle of May, and those receiving passing marks will be interviewed by the board. Men selected by the

board will then be invited to attend the State Police Training Academy.

A candidate must be a citizen of the United States between the ages of 21 and 35 years, and a resident of Illinois for the past two years. He must be not less than five feet nine inches tall nor more than six feet four inches tall, with weight in proportion. A high school education or its equivalent and the ability to drive an automobile are es-

sential. Honorable discharged veterans of the U. S. armed forces are given preference.

Patrolmen are required to work a minimum of 48 hours a week at a starting salary of \$325 per month. Maximum pay for patrolmen is \$360 a month after five years.

Application forms can be obtained from the State Police Merit Board, 413 Centennial Building, Springfield.

Give DRY-WALL
that Plaster Look

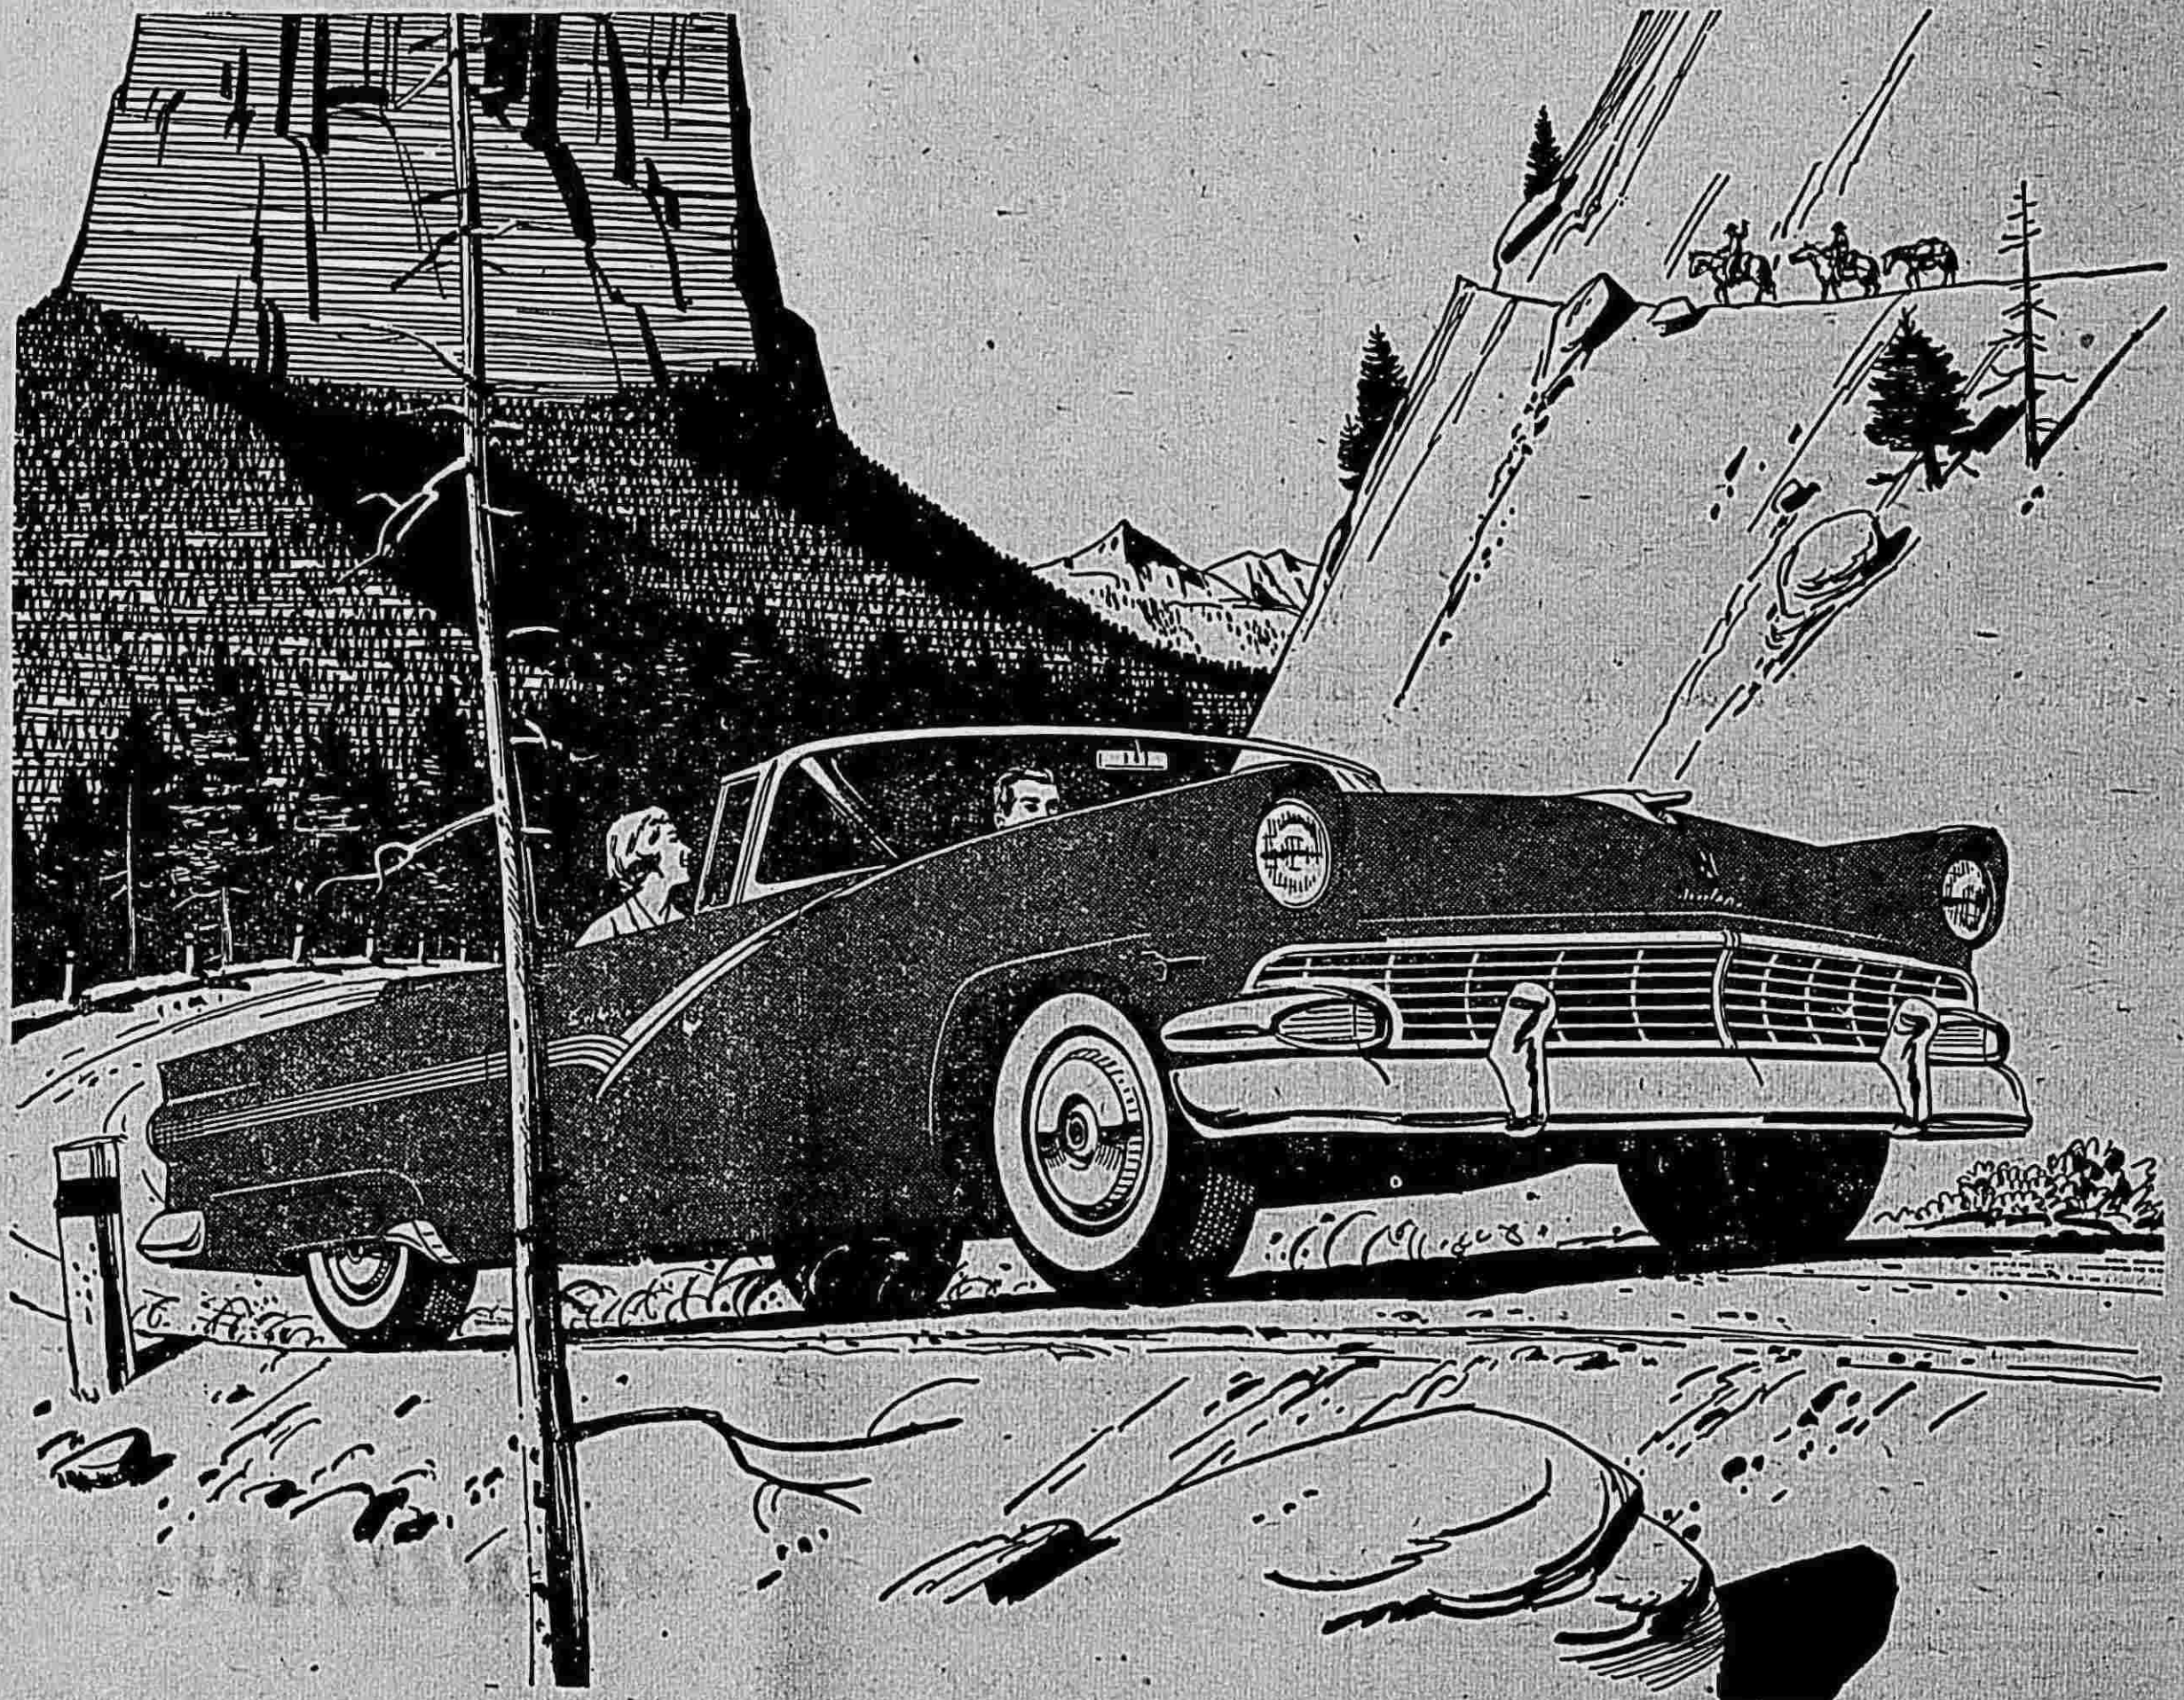

If you've been looking for some way to hide seams and nail heads in your dry-wall construction, then Plastr-Tone is the answer. This product actually paints and plasters in one operation. It provides a coating which is four times as thick as ordinary paint so easily hides all seams, nailheads and, in fact, any and all blemishes or marks. Tough, flexible and completely washable, it will not chip or scratch and resists strains which break plaster.

Plastr-Tone is easy to apply with a roller or brush just as it comes from the can. It is available in fifteen beautiful colors and white. Why put up with that "dry-wall" look when it is so simple to obtain the luxurious plaster effect of Plastr-Tone?

Plastr-Tone can be purchased at

Antioch Lumber
& Coal Co.

In looks, too, Ford's out front—with styling that only the Thunderbird could inspire

Ford goes First!

In Performance

At NASCAR's Speed and Safety Event at Daytona, Ford won the Manufacturer's Trophy for best all-around performance. And Ford's 225-h.p. Thunderbird Special V-8, in one day, smashed 30 world speed records at Kingman, Arizona. No wonder Ford is the world's largest-selling eight.

In Safety

When the editors of "Motor Trend" unanimously voted Ford's safety program "the top car advance" of 1956, they had in mind Ford's Lifeguard Design... a whole family of safety features, including a deep-center steering wheel and double-grip door latches, to help protect you in case of accident.

In Economy

In this year's Mobilgas Economy Run, a Ford Customline V-8 with Fordomatic won over all cars in its class. The sturdier, heavier Ford carried more weight with greater gasoline economy per pound than any competitive car... "sizes" as well as "weights" Ford proved itself a regular gas miser.

The way a Ford performs, the way it saves, the way it protects you, go hand-in-hand with the way it looks and lasts. Ford's look was inspired by America's most exciting car, the Thunderbird. Its rugged K-bar frame and carefully-built body give it the endurance and reliability traditional with Ford. These are the facts behind Ford's reputation as the car that's worth more when you buy it... worth more when you sell it, too! Come in and let us show you!

Census Bureau Collects Employment Facts Week of April 16

Facts on employment and unemployment will be collected from a number of families in Chicago and the surrounding area during the week of April 16 in the Current Population Survey, according to supervisor Guy A. Lutz of the Census Bureau's district office at Chicago which will participate in the survey. Information collected locally is combined with facts obtained in other parts of the country to provide national statistics.

The Current Population Survey, conducted on a sample basis for more than a decade by the Census Bureau, provides up-to-date national estimates on employment and unemployment and also related population characteristics information such as the number of persons who are not working because they are in school, retired or unable to work, the availability of manpower for both defense and civilian production, and similar facts. Industry, labor and government are constantly using this information in planning various kinds of programs and in measuring the general level of business activity.

2 States Now Have Uniform Vehicle Code For Drinking Drivers

CHICAGO—With the recent enactment of a new law in Virginia, two states now have adopted recommended uniform legislation on chemical tests for drinking drivers, the National Safety Council announced today.

The new law, a section of the Uniform Vehicle Code, permits the use of a chemical test evidence and

OUT ON A LIMB

By Stumpy McCulloch

Well, sir, Jefferson's a home-lovin' body, and he don't get to town much more often than once every five or six years. On his last trip, he was drivin' down Main Street in his horse and buggy, when along comes a fire engine, clanging and screamin'. Well, Jefferson managed to scoot out of the fire engine's path, but his buggy got hit square in the middle by the hook-and-ladder truck.

When Jefferson woke up, the doctors asked him, "Why didn't you get out of the way—didn't you hear the siren?"

"Sure I heard it," Jefferson said. "Twasn't the engine that hit me—it was that truckload of crazy house-painters careening along behind it!"

A log trap is a good thing for a lumberman to set out of. That's what happens when a feller is bucking a tree into logs, and makes the mistake of cutting at the wrong angle. The logs won't fall apart, 'cause the weight of one is resting against the other, and your saw may be caught between them. Cut at a slight angle away from the side which appears likely to drop, and the cut will open up.

A log's lateral movements can also catch a saw and cause a log trap. Best way of avoiding this, I've found, is sizing up the situation and determinin' what movements the logs will make when they're cut apart. Matter of fact, a feller can use the logs' weight to his own advantage. But look out for a log that may roll toward you when it's cut!

Eben tells me his garden was so successful this year that his neighbor's chickens took first prize at the poultry show!

I see in the papers where Marymount Teachers College in New York owns a wood fossil with a saw-mark in it! They ain't sure, but they think this may prove that some feller in the Southwest used a metal saw for cutting wood as much as 25,000 years ago. Must have been a mighty tough piece of wood, though, 'cause he never managed to saw all the way through it!

By the way, I hear helicopters are mighty useful to lumbermen over in Sweden. In the Lapland, they're using 'copters to break up log jams—which are mighty costly and time-consuming! A 'copter hovers over a log jam and lowers a feller who plants an explosive charge. As soon as the fuse is set, the 'copter whisks away—and forty seconds later the dynamite goes off, and the jam is broken.

As Noah said while the animals was boardin' the Ark, "Now I herd everything!"

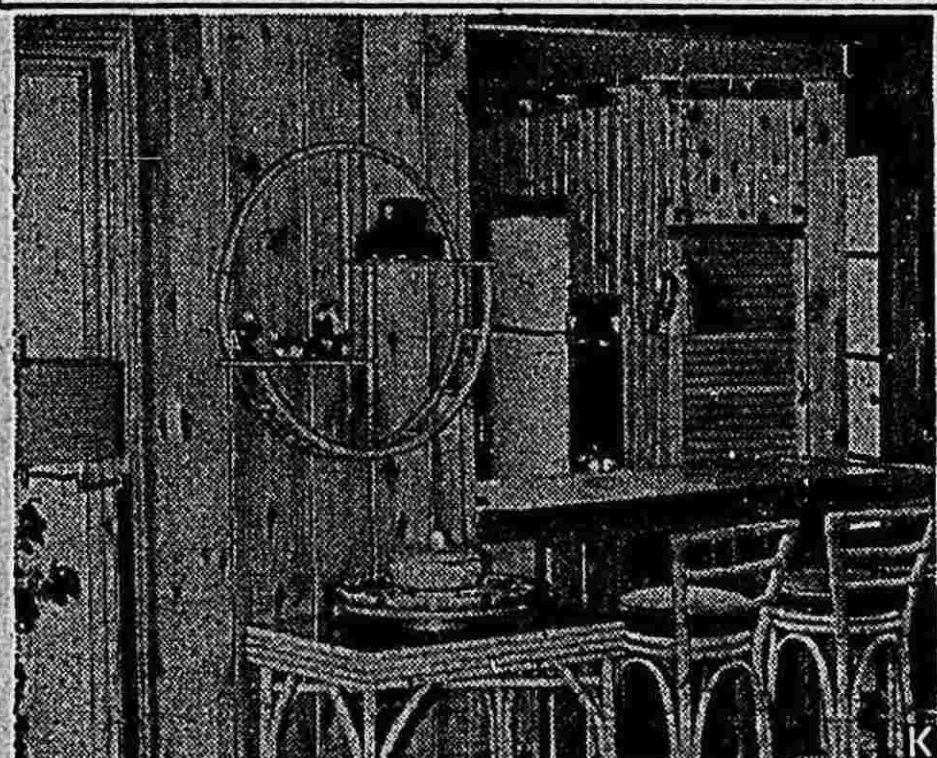

See you next week!

For Happier Eating Smarten Up, Open Up Your Kitchen

Eating at home can be a lot more fun when the meal center has an attractive atmosphere. There's something about the stark whiteness and coldness of many kitchen and breakfast areas that simply does not lend itself to relaxed gracious living.

As a result, there's been a swing toward the warmth and natural beauty of wood. Popular choices are the ten woods of the western pine region because of their abundance, economy, and easy workability. With the different species and an infinite number of possible finishes, any effect can be created, from Early American to modern.

High on the list of modern

homemakers today is the pine breakfast bar which permits quicker meals and snacks and easier serving.

Following the trend toward open planning, it serves as a room divider, eliminating the confinement of a solid wall.

Best of all, the western pine kitchen-breakfast bar combination is practically a "work-proof" work area because of its easy upkeep.

defines the blood alcohol levels in accordance with recognized medical standards.

The other states which had previously adopted the model law are Arizona, Delaware, Georgia, Idaho, Indiana, Kansas, Kentucky, Maine, Minnesota, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Oregon, South Carolina, South Dakota, Tennessee, Utah, Washington and Wisconsin.

The legislation was backed by the

Governor's Highway Safety Committee of Virginia, and effective public support in overcoming opposition to the bill was provided by the League for Safety Education, headed by Mrs. Randall W. Everett, Jr., safety chairman of the Virginia Federation of Women's Clubs.

Mrs. Everett is a former winner of the Carol Lane award, which is administered by the National Safety Council under a grant of the Shell Oil Co. to recognize and reward

achievements of women in support of traffic safety.

The Council announced that the deadline for entries in the 1956 Carol Lane Awards for Traffic Safety is June 15. Named for the women's travel director of Shell, the awards are open to any American Woman or woman's club. Awards in each category are \$1,000, \$500 and \$250 savings bonds, as well as bronze statuettes. Information may be obtained from the Council at 425 N. Michigan Ave., Chicago.

THANK YOU—

Mr. and Mrs. Louis Bauer, former owners of Snowwhite Ice Cream Stores, wish to thank their many friends for their patronage in the past 18 years.

They would appreciate your continued patronage with the new owners, Mr. and Mrs. Thomas Demes of Lake Shangri La, who will open the Ice Cream Store Saturday, April 21, 1956.

Mr. and Mrs. Demes will feature the same flavors and fine quality of home made Ice Cream that you have enjoyed in the past.

Louis and Marcella Bauer

Springtime is Plymouth Hardtop time!

Two doors or four doors, V-8 or 6, there's a Plymouth Hardtop for you. Whichever you pick, you'll have the biggest, smartest Hardtop of the low-price three!

The incomparable Plymouth Belvedere four-door Hardtop. V-8 or 6.

Most beauty, size, value in the low-price three—all yours in a big new '56 Plymouth Belvedere or Savoy Hardtop!

Here's the ideal companion for springtime driving fun—a bright new Plymouth Hardtop. Drive one and see! Look at those racy "let's go!" lines... try the reflex-quick response of Plymouth's sensational new Hy-Fire V-8 or 6... see how easily your Plymouth whisks you through city

traffic, out to the open road where you belong, you and your Plymouth Hardtop.

With windows down, you enjoy all the airy fun and flair of a convertible. With windows up, you're sedan snug. You won't settle for anything less, once you've driven a Plymouth Hardtop!

Plymouth is the biggest car in the low-price three... longest, lowest, roomiest, with a true big-car ride.

With the newest styling of the low-price three... this Plymouth is really new. No "warmed-over" design!

The only Push-Button Driving in the low-price three... mechanical, safe, and so simple. Optional on all models.

The performance champ of the low-price three... holds official NASCAR speed and acceleration records!

And... it's mighty easy to own a Plymouth Hardtop... ask your dealer about his modern finance plan today.

Plymouth costs less

From the day you buy it... through all the years you own it... you'll spend less on a Plymouth. That's one reason more Plymouths are used as taxis than all other cars combined.

**Motorist Must Watch Out
For Children at Play**

After a long winter indoors, children take to the outdoors with the first sign of warm weather to participate in the many games and activities.

"This places an added responsibility on the motorist," declares Charles M. Hayes, president of the Chicago Motor Club.

"Children at play are likely to be impulsive and carefree," warned Mr. Hayes, "and it is the motorist's responsibility to be on the lookout for them at all times, particularly in playground areas."

Unfortunately, all activities of children aren't confined to playgrounds, the Motor Club president points out.

Spring baseball "training" starts for many youngsters with the advent of warmer weather. Many times their baseball "field" is a busy street.

Spring also brings out the bicycles, tricycles, roller skates and toy vehicles.

While motorists are constantly admonished to be on the look out for children, parents are urged to caution their children about riding their bicycles with the traffic on the streets. Children operating vehicles-permitted on the sidewalk are urged to be watchful for pedestrians, particularly aged persons.

Thank You

We wish to express our appreciation and thanks to our neighbors and friends for the many beautiful flowers, and for their acts of kindness and sympathy shown during our recent bereavement.

Mr. and Mrs. Charles Davis
Mr. and Mrs. Richard Davis
Mr. and Mrs. Donald Brown

"If young Johnny aspires to be another 'Red' Grange, Jesse Owens, or Ted Lyons—or if he just wants to be a good all-around athlete and student—he'd better look to his breakfast habits."

While everybody needs a good breakfast, nutritionists say, this is particularly true of teenagers who for mental alertness and general good health must start the day with a good meal. Athletic directors agree.

K. L. "Tug" Wilson, president of the U. S. Olympic Association and commissioner of the Big Ten, credits improved nutrition, of which breakfast is a vital part, as an important factor in better performances of athletes today.

"A record in a single event made by an individual in 1925 or 1935 and still standing doesn't mean much when you look at the whole picture of athletics from high school to Olympics today," Wilson said. "We may not produce another Owens for ten or twenty years, but it's the average boy you've got to consider. And there are thousands of average boys out running, out-swimming and out-jumping their counterparts of a generation ago."

Charles Ornstein, who has supervised the feeding of America's inter-national athletic teams for 28 years, stresses good breakfasts, light lunches and big dinners as a dietary pattern for his Olympic stars.

A. H. Fritzlaff, director of the Division of Health and Physical Education for Chicago's Board of Education, believes in teaching athletes the value of three well-balanced meals a day. "We do not advocate a 'training schedule' diet as such today," he said.

There has been a "vast improvement" in the physical condition of the average sports participant over the last 15 or 20 years, according to Fritzlaff, and much of this improvement is due to good diet and a greater knowledge of nutrition.

For teenagers not so athletically inclined, breakfast is still a very important meal. Dr. James R. Wilson, former secretary, Council on Foods and Nutrition, American Medical Association, says a good breakfast does this:

"It helps an adolescent, who needs more of most foods than his or her parents, get enough calories and essential nutrients for growth and to withstand the Teenagers need not only more calories but also more protein such as they can get in bread and milk, meat and eggs."

And for everybody, Dr. Wilson and other nutritionists say that a good breakfast should include fruit or fruit juices, cereal, eggs and meat, enriched bread or toast, butter or margarine and a beverage.

**Soil Insects Can Be
A Corn Field's Worst Enemy**

Virgil R. Shoger, who farms near Aurora, Illinois, shows where soil insects damaged his corn last year. Photograph was taken early in the 1955 growing season. Row on the left did not receive a soil insecticide treatment because an attachment on the planter clogged up and failed to apply the starter fertilizer-insecticide mixture. Cutworms, wireworms and other soil insects damaged plants up and down the row, but the treated corn made a uniform stand. The chemical mixed with the fertilizer is called aldrin, and it kills insects that feed on roots of corn plants below the soil surface. Most Corn Belt farmers are planning soil insecticide treatments again this year, either applying the chemical mixed with fertilizer, or spraying it on and disking it in before planting.

FROM ONE TO A BILLION DOLLARS IN 35 YEARS is being recorded by the Business Men's Assurance Company at its home office in Kansas City, Mo., as Miss Shirley Devine, official hostess for the billion dollar celebration, presents policies to Charles S. Alves (left) and W. T. "Tommy" Grant, II, who were named by the company to receive the last policy on the first billion and the first policy on the second. Alves owns the first policy sold by BMA, issued 35 years ago. Tommy is the grandson of the man who sold that first policy, W. T. Grant, the founder of BMA (in portrait).

**REPORT OF CONDITION OF
STATE BANK OF ANTIOCH**

of Antioch in the State of Illinois at the close of business on March 19, 1956. Published in response to Call of Orville E. Hodge, Auditor of Public Accounts.

CAPITAL ACCOUNTS

25. Capital	100,000.00
26. Surplus	125,000.00
27. Undivided profits	44,101.09
28. Reserves	366.74
29. TOTAL CAPITAL ACCOUNTS	269,467.83
30. TOTAL LIABILITIES AND CAPITAL ACCTS.	\$5,478,659.29

MEMORANDA

33. (a) Loans as shown above are after deduction of reserves of 26,989.60.
I, J. Ernest Brook, President of the above-named bank, do solemnly swear (affirm) that the above statement is true, and that it fully and correctly represents the true state of the several matters herein contained and set forth, to the best of my knowledge and belief.
(signed) J. ERNEST BROOK
President.

Correct—Attest:
William E. Brook, Irving W. Carey, Frank D. Powles, Directors
State of Illinois, County of Lake, ss.
Sworn to and subscribed before me this 10th day of April, 1956.
Bernice Reisser, Notary Public
(SEAL)
My commission expires October 29, 1959.

"Everyone to his taste" is particularly true of investments. Some people emphasize safety, some the return. United States Savings bonds, Series E and H, offer absolute safety and good return. Ask your banker.

Card of Thanks

I wish to thank all my relatives, friends and neighbors, doctors and nurses of the Waukegan T. B. Sanitarium, Mr. Strang of Strang Funeral Home, Father Henderson,

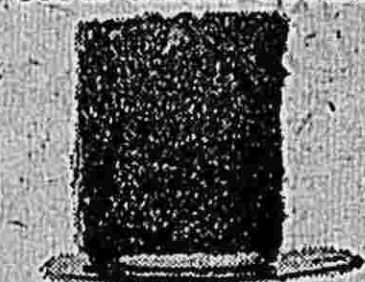

Father Johnson and the St. Peter's Holy Name Society, for their acts of kindness and sympathy extended to me during my recent bereavement, the loss of my beloved husband, Anton Doubek.
Mrs. Josephine Doubek

WHY

you should sign up for
Shell Furnace Oil with exclusive FOA-5X
and why you should do it NOW!

LOOK AT THE DIFFERENCE

when your oil burner uses

New Shell Furnace Oil with FOA-5X

Filter screen using ordinary heating oil after one month looked like this.

Filter screen using NEW Shell Furnace Oil with FOA-5X after entire heating season is clean as a whistle.

Now every gallon of Shell Furnace Oil contains FOA-5X—a special added ingredient that stops filter screen clogging. Shell laboratories with their years of experience and research have now introduced FOA-5X to the public. Yet Shell Furnace Oil with FOA-5X costs no more than ordinary heating oil.

First Come—First Served

Remember the early bird catches the worm. And your early "sign up" will insure constant heat and complete service this winter.

Space Travel Testé
... on the Ground

Looking more like a house furnace than a space-traveling rocket, the first piece of test equipment built specifically for outer-space human research has been delivered to the Air Force School of Aviation Medicine at Randolph AFB, Texas.

According to Dr. Hubertus Strughold who heads the Air Force project, the cabin will give aeromedical researchers most of the sensations that they would have on a flight in space. The "sealed cabin" does not fly. It was designed to investigate human factors inside the cramped quarters of a space ship far outside the limits of the earth's atmosphere.

Hermetically sealed, the cabin tells scientists what goes on inside a space ship where a careful bal-

ance of atmospheric conditions must be artificially maintained.

Conventional pressurized cabins cannot be used above 80,000 feet. There is so little air at that height that present-day compressors can't pump in enough to keep passengers safe from altitude sickness.

Also, the air above 80,000 feet contains ozone, a gas which is harmful in high concentrations.

Here are a few of the problems facing Dr. Strughold and his staff.

How little climatization can a human being stand? This is important since refrigeration and other protective measures add weight to the craft. (The average man uses up 26 quarts of oxygen an hour, exhales carbon dioxide—along with water vapor which raises the humidity. He also produces body heat which raises the temperature.)

How little air pressure can the human body stand without fear of

bends? Total air pressure cannot be too great in a space ship or it will weaken the walls in the near-vacuum around the craft.

Dr. Strughold and his staff hope to have the answers ready when they are needed. When will men start needing the sealed cabin to edge into the outer space? Dr. Strughold thinks soon. He's working, he says, against time.

Postal Service Seeks
Postal Clerks; Offer
\$1.92 Starting Wage

The Post Office Department has announced that opportunities exist for career appointment as Postal Transportation Clerks in the State of Illinois and Michigan, at a start-

ing salary of \$1.92 per hour. A 10 per cent bonus is paid for night work and regular automatic raises are given to all employees with satisfactory service.

New employees are given "on the job training" and assigned to the Chicago Illinois Air Mail Field, the Chicago Terminal or the Chicago Suburban Truck Terminal which ever they prefer. Later they may

transfer to Railway Post Offices or Highway Post Offices of their choice when vacancies occur.

All applicants must take a short written Civil Service Test to qualify. Interested persons may obtain the necessary forms for filing application by writing to the Director, 7th U. S. Civil Service Region, Main Post Office Building, Chicago 7, Illinois.

Civil Defense Compact Signed Between Illinois And Northern Neighbor

Official recognition was given to the fact that nuclear warfare knows no political boundaries as Illinois and Wisconsin negotiated today, a mutual assistance pact pledging mutual aid and Civil Defense cooperation in the event of enemy attack.

State CD Director, General Robert M. Woodward, presided at a meeting of the State Interim Committee on CD Compacts at 2:30 p. m. at the State of Illinois Building, to approve the interstate compact.

The Interim Committee, empowered by the Illinois Civil Defense Act to approve such agreements when the legislature is not in session, consists of Senators George E. Drach, Victor McBroom, Marshall Korshak, and James W. Gray; Representatives William E. Pollack, John W. Lewis Jr., David Hunter, Jr., George W. Dunne and William Lyons.

Wisconsin was represented by its State Civil Defense Director, General Ralph J. Olson.

General Woodward, representing Governor William G. Stratton, explained that the need for this interstate pledge of assistance was recently emphasized by the launching of a nation-wide Survival Plan in which both Wisconsin and Illinois agreed to undertake. The preparation of survival surveys plotting escape routes from Chicago and Milwaukee necessitates close cooperation between these two neighboring States since their populations may be forced to flee from nuclear attacks.

The agreement does not become operative until the Governor of each state declares a state of Civil Defense emergency.

HIGHWAY HORSE SENSE

BY GEORGE CARROLL

TRIP TO THE MOON, ANYONE? The United States has the largest highway network in the world—3,394,561 miles of roads. That's equal to more than 14 times the distance to the moon. Russia is a very poor second with 1,682,000 miles. But Russia doesn't have as much paved highways as the State of Florida.

LOOK OUT FOR THE HORSES. Mile for mile, horse travel was actually more than four times as fast as auto travel, the National Safety Council reports. Their figures show that in 1909 (the peak of horse travel) the fatality rate was 30 deaths for each 100 million miles of travel. The average horse traveled 500 miles in a year.

Today with the average car doing about 10,000 miles a year, fatalities are about 6.5 per hundred million miles.

\$6½ BILLION TUNE. "Every one wants good roads but no one is willing to pay for them." How many times have we heard that statement. Actually, the American motorist who pushes around that old family buggy is not only willing to pay for roads—he is

already paying for them to the tune of \$6½ billion a year.

He's paying taxes on his gasoline that amount to more than a 55% sales tax. His automobile is taxed at 10%... tires, tubes, and accessories are also hit hard. On a national average, a motor vehicle owner pays about \$110 a year in taxes just for the privilege of driving a car.

SHORT STARTLERS. The old Stanley Steamer started the world in 1906 with a speed of 127 miles per hour. A year later another "peanut roaster"—that's what they called the steam cars—was caught at 100 miles per hour.

The average wage earner has to work 25 minutes to pay the tax on ten gallons of gas.

NUT CRACKER. We've heard of many ways to shell nuts but never the one that confronts the sheriff in Murfreesboro, Tennessee. Farmers there have been strewing the roads with walnuts so that the wheels of passing cars will shell them. It's a good idea but it's against the law. The sheriff wants it stopped.

—Evacuees shall be given the same care and treatment that respective States would accord their own citizens.

—Professionally licensed persons shall have reciprocal rights during an emergency.

—Each State agrees to pay compensation and benefits provided under existing laws in cases where

QUEEN of the Hardtops!

Pontiac's Regal Catalinas
Combine the
Most Glamorous Styling
and Breath-taking
Performance
in Hardtop History

This one got our special attention—the magnificent Star Chief 4-Door Catalina, pride and joy of the Pontiac hardtop family!

The most exciting Catalina ever built (and remember, Pontiac introduced Catalina design), Pontiac's Star Chief hardtops reflect the best efforts of stylists given a free hand to be lavish with luxury. And generous they were! Here are soft, hand-buffed top-grain leather, rich nylon, deep-pile carpeting, all perfectly matched with exterior colors. Here's smartness and luxury you won't find in any other car at any price!

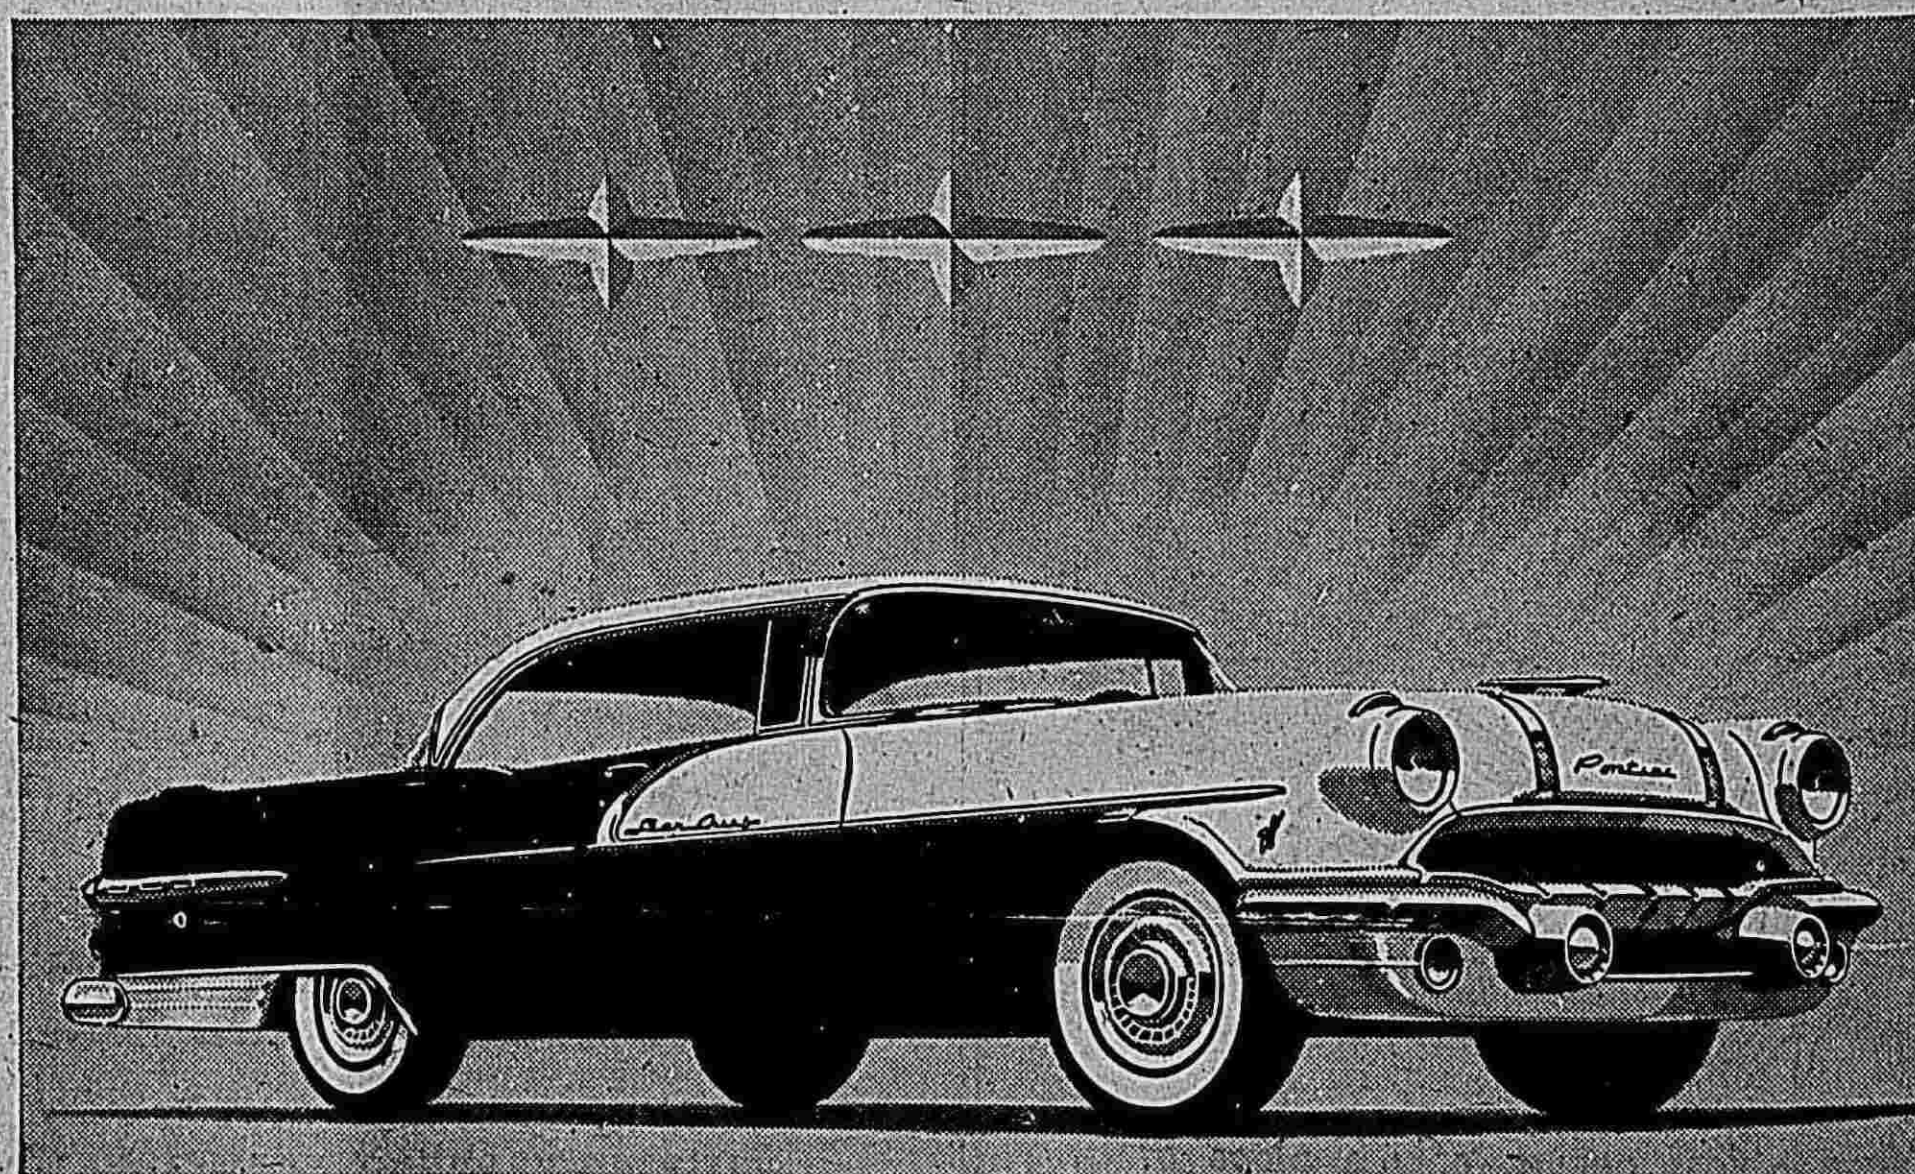

Drive it and find something else you won't get in any other car: the combination of 227-horsepower Strato-Streak V-8 and Strato-Flight Hydramatic* that leaves all other kinds of power in your wake!

By now you know this is just what you've wanted—and you'll be happy to know there's nothing to keep you from having it!

Your Pontiac dealer can set you straight on this dream car's modest cost—and also show you Pontiac's three complete lines of two- and four-door Catalinas in three price ranges. One is bound to be yours!

*An extra-cost option.

The car says 60 and the price won't stop you!
